Current Construction Activities

There is no construction activity at this time.

- ☑ **House Deconstruction** - The house at at the future pump station site has been completely deconstructed, including the concrete basement and pool.
- ☑ **Surge Tank** - The hydraulic surge tank has been installed at the Fanno Basin Pump Station, and the pump station has been activated per our agreement with Clean Water Services.
- ☑ **PGE Conduit –** PGE has installed all of the vaults and has completed the paving on SW 84th Avenue.

Upcoming Construction

SW 86th Avenue Pump Station – Environmental Services has hired JW Fowler who should be starting construction on the site in the coming weeks, pending Washington County permits. More details on the construction schedule will be available soon.

Public Inquiries

- A neighbor reported there was a large plume of concrete dust on SW Scholls Ferry Road from the subcontractor hauling the broken up concrete from the job site. The construction manager was notified and a tarp was suggested for any future hauling of loose materials from the job site.

ENVIRONMENTAL SERVICES
CITY OF PORTLAND

working for clean rivers

- A couple of neighbors on SW Bohmann Parkway reported concern of excessive vibration from the job site. The vibration was the result of the subcontractor compacting the soil at a trench where the sewer line from the deconstructed home was capped/deactivated.

On-site Office Hours

Outreach staff are on-site weekly to provide updates and answer questions.

- Mondays from 10:00 a.m. to noon and Thursdays from 3:00 p.m. to 5:00 p.m. on the Fanno Creek Trail at SW 86th Avenue.
