The mechanics listed have been verified as ASE Certified Master Automotive Technicians as of 6/12//2014. The contact information for the mechanics is provided as we have on file. If the Company Name or Address fields are blank this indicates we do not have that information for the mechanic. This list does not include all area ASE Certified Master Mechanics.

A mechanic's name in **bold type** indicates that they are an ASE Master Mechanic for larger vehicles.

If you wish to use an ASE Master Automobile Technician that is not on our list please provide us with the mechanic's ASE Certificate ID and name as registered with ASE. Once their certification is verified the mechanic will be added to this list.
