

Applying for a New Single Family Residential Project and Sample Fees

The Bureau of Development Services (BDS) accepts New Single Family Residential (NSFR) and New Construction Accessory Dwelling Unit (ADU) Projects for review through two different intake processes:

- For one or two dwelling unit projects, you will submit your plans through the NSFR Submittal and Review Process. To submit your NSFR Plans you may come to the DSC between Monday, Tuesday, Wednesday, and Friday from 8:00 AM - 2:00 PM, and Thursday from 8:00 AM - 11:00 AM.
- For three or more dwelling units (designed to the residential code) on a single lot or attached to each other, you will submit your plans through the Batch Submittal and Review Process.

NSFR Submittal and Review Process – for projects of one or two units

- 1. Prepare and** bring the items noted below to the Development Services Center, Monday, Tuesday, Wednesday, and Friday from 8:00 AM - 2:00 PM, and Thursday from 8:00 AM - 11:00 AM. We will assist customers until 3:00 p.m. at which time we stop processing NSFR/ADU intakes.
 - A) Completed NSFR Application
 - B) Four sets of complete plans with an additional 11X17 Site Plan.*
 - C) Complete submittal materials per NSFR Minimum Submittal Checklist
- 2. Meet** with a Technician in the DSC to check the completeness of your NSFR application packet and plans. Application packets and plans must be deemed complete to be Approved for Intake.
- 3. Plans** and application materials that are Approved for Intake will have intake fees generate and billed. Following the bill payment, the NSFR will be Under Review. An initial Plan Review Report will be provided to the applicant in one week following the payment of the intake fees.

A Limited Preliminary Review meeting with Life Safety and Planning for the Design Professional may be requested following payment of intake fees. A \$75 Missed Appointment fee will be charged for not attending a requested meeting. The Meeting will not be rescheduled.

Drop Off Process for NSFR Submittals

NSFR drop off submittals will be accepted in Permitting Services located on the 2nd floor of the 1900 SW Fourth Building. Hours are Monday, Tuesday, Wednesday, and Friday from 8:00 AM - 2:00 PM, and Thursday from 8:00 AM - 11:00 AM.

Within one week Applicants will be notified, by email, about the status of their submittal. If deemed complete, intake fees will be identified. If deficient, information on how to proceed will be identified.

Batch Submittal and Review Process - for projects of three or more units

Projects that include three or more structures built to the Oregon Residential Specialty Code or International Residential Code and are located on a single tax lot or attached to each other are submitted through the Batch Track. Examples of Batch Track Projects could include three townhouse units, or three or more single-family homes on one tax lot.

These projects necessitate BatchTrack processing due to the unique Planning and Zoning requirements, which differ from those for standard single-family development. In addition, projects involving multiple structures on one tax lot require a separate Site Development permit for the common infrastructure elements such as driveways, utilities, and landscaping.

- 1. Prepare and** bring the following items to the Permitting Services located on the 2nd floor of the 1900 SW Fourth Avenue Building. Hours are Monday, Tuesday, Wednesday, and Friday from 8:00 AM - 2:00 PM, and Thursday from 8:00 AM - 11:00 AM.
 - Completed Batch Intake Worksheet and NSFR Application packet (including information for each building type)
 - 4 sets of complete plans
 - Any additional submittal materials*
* (see NSFR Minimum Submittal Checklist)
- 2. A Process Manager** will be assigned to your project. Within one week Applicants will be notified, by email, about the status of their submittal. If deemed complete, intake fees will be identified. If deficient, information on how to proceed will be identified.

If you are unsure how your project should be processed, or if you have questions about the information necessary to submit, please call Permitting Services at 503-823-7357.
