Case Type: AD, Adjustment
Procedure: Type II, an administrative decision with appeal to the Adjustment Committee.

Proposal:

In 2008, the applicant received an approval of an Adjustment to reduce the rear and side setbacks for a new, larger attached garage to replace an existing attached garage in the same location. After the garage was constructed, the applicant created an outdoor patio area atop the flat roofed garage. However, because the new garage was approved with reduced setbacks, the

patio must also receive an Adjustment approval to have reduced setbacks, as the garage was approved as a garage, without the additional patio use being reviewed.

Therefore, the applicant requests an Adjustment to allow the patio use to have the same side setback as the garage, i.e. 2 feet from the property line along SE 23rd Avenue, and to reduce the rear setback of the patio use to 4 feet. The applicant proposes to install panels of 3/16th inch thick frosted tempered glass panels along the outside of the patio railing along the north side of the garage, and realign an existing Wisteria shrub to grow along the inside of the patio railing so that it will not grow into the adjacent neighbor's yard, but continue to provide greenery. The applicant also proposes to install planter boxes behind the railing and re-aligned Wisteria, to provide additional distance from the north property line and proposed patio use. The applicant requests an Adjustment to reduce the setback of the patio use to 2 feet from the east property line and 4 feet from the north property line. Attached to this Notice are elevations, a site plan and a zoning map depicting the proposal.

Relevant Approval Criteria:

In order to be approved, this proposal must comply with the approval criteria of Title 33. Adjustment requests will be approved if the review body finds that the applicant has shown that approval criteria A. through F. of Section 33.805.040, Adjustment Approval Criteria, have been met.

33.805.040 Approval Criteria

- A.** Granting the adjustment will equally or better meet the purpose of the regulation to be modified; and
- B.** If in a residential zone, the proposal will not significantly detract from the livability or appearance of the residential area, or if in an OS, C, E, or I zone, the proposal will be consistent with the classifications of the adjacent streets and the desired character of the area; and
- C.** If more than one adjustment is being requested, the cumulative effect of the adjustments results in a project which is still consistent with the overall purpose of the zone; and *(not applicable)*
- D.** City-designated scenic resources and historic resources are preserved; *(not applicable)*
- E.** Any impacts resulting from the adjustment are mitigated to the extent practical; and
- F.** If in an environmental zone, the proposal has as few significant detrimental environmental impacts on the resource and resource values as is practicable; *(not applicable)*

Zoning Code Section 33.700.080 states that Land Use Review applications are reviewed under the regulations in effect at the time the application was submitted, provided that the application is complete at the time of submittal, or complete within 180 days. This application was submitted on March 6, 2014 and determined to be complete on April 11, 2014.

The phone number for LUBA is 1-503-373-1265. Issues that may provide the basis for an appeal to LUBA must be raised prior to the comment deadline or prior to the conclusion of the hearing if a local appeal is requested. If you do not raise an issue with enough specificity to give the Bureau of Development Services an opportunity to respond to it, that may also preclude an appeal to LUBA on that issue.

The Bureau of Development Services is committed to providing equal access to information and hearings. Please notify us no less than five business days prior to the event if you need special accommodations. Call 503-823-7300 (TTY 503-823-6868).
