Eastmoreland-Woodstock Sewer Repair Project

Construction Update

February 10, 2014

CONTACT: Debbie Caselton, 503-823-2831
Debbie.Caselton@portlandoregon.gov

Construction continues on a project in your neighborhood to repair or replace about 40,000 feet of severely deteriorated sewer pipes that are more than 60 years old. The work will make the sewer system work more effectively and protect water quality, public health and the environment.

Construction should be completed by summer 2015. The project area is bordered by SE Woodstock Boulevard on the north, SE 28th Avenue on the west, SE 45th Avenue on the east and SE Crystal Springs Boulevard on the south. See map on back.

FOR SAFETY REASONS: It is very important to try and not enter a job site. Do not step over or under any pipe (as seen in picture to the right).

Construction Schedule

Below is the estimated construction schedule for the rest of this week and the next couple of weeks. Construction will move from one site to another as work on each segment is completed.

Due to the weather, the schedule was delayed a couple of days.

This week

- SE Henderson Street (42nd to 44th) – Continue to pipe burst and connect or install manholes

Week of February 17

- SE Henderson Street (42nd to 44th) – Continue to connect or install manholes, and install new branches to connect houses to main public sewer pipe
- SE Flavel Street (42nd to 45th) – Set up and start pipe burst

Week of February 24

- SE Flavel Street (42nd to 45th) – Connect or install manholes, and install new branches to connect houses to main public sewer pipe

This photo is not of the current project.

ENVIRONMENTAL SERVICES
CITY OF PORTLAND

working for clean rivers

Continued

Over one-third of Portland's 2,500 miles of sewer pipes are more than 80 years old. Projects to replace or repair aging sewers are important for protecting water quality, public health, and the environment. Learn more at www.portlandoregon.gov/bes.

What to Expect During Construction

- Typical work hours are 7:00 a.m. to 6:00 p.m. Monday through Friday, but may work during the same hours on Saturdays.
- Construction will create noise, vibration and dust and will disrupt normal neighborhood activity.
- Traffic control signs will be set up. The contractor will maintain local access, but you should expect delays.
- On-street parking in or near the work area will be prohibited during construction hours. Please plan to move your vehicle each day by 7:00 a.m.
- Equipment and materials may be stored on nearby streets overnight.
- There may be periods of inactivity between construction phases.
- A city inspector will be on-site during work hours and may be able to assist you with construction concerns. Inspectors typically wear a safety vest and hard hat.
- Please stay clear of all construction activities. Please keep your children from harm and instruct them to stay clear of all construction activities. We also appreciate your keeping pets and vehicles out of the construction areas.
