

CLASS SPECIFICATION
Conservation Programs Specialist

FLSA Status: Exempt
Union Representation: Nonrepresented

GENERAL PURPOSE

Under general supervision, performs a variety of professional conservation programs management responsibilities for assigned energy efficiency, solid waste recycling and other conservation programs; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

Conservation Programs Specialist is the first class in the professional conservation program series. Initially, incumbents perform conservation and waste recycling projects of routine to moderate difficulty while learning City and bureau policies and procedures and professional techniques and requirements related to the broad areas of public information and education on conservation and waste recycling awareness and efficiency. As experience is gained, duties become more diversified and are performed with greater independence and authority.

Conservation Programs Specialist is distinguished from Conservation Programs Coordinator in that incumbents in the latter class independently perform conservation program responsibilities that are technically more complex and have greater business, community and residential impact.

ESSENTIAL DUTIES AND RESPONSIBILITIES

Any one position in this class may not perform all the duties listed below, nor do the listed examples of duties include all similar and related duties that may be assigned to this class.
