

**CLASS SPECIFICATION**

**Botanic Technician II**

FLSA Status: Covered

Union Representation: City of Portland Professional Employees Association (COPPEA)

**GENERAL PURPOSE**

Under general supervision, directs and performs technical support assignments applying botanical, horticultural and natural resource knowledge in implementing botanic, natural areas trail, and/or horticultural projects; assists with planning projects and with reviewing project success after implementation; plans, organizes, trains and directs seasonal employees, volunteers and nonprofit organizations in carrying out assigned project activities; and performs related duties as assigned.

**DISTINGUISHING CHARACTERISTICS**

Botanic Technician II is the advanced technical support/assistance level in the Botanic Technician series. Incumbents implement planned activities; provide on-site instruction, direction and guidance; assist with the development of botanic, natural areas, soft surface trail, and/or horticultural project plans and coordinate with volunteer groups as needed.

Botanic Technician II is distinguished from the Botanic Technician I, in that the incumbents in the latter class work alongside of seasonal staff and volunteers and support their work, while the former class directs work teams comprised of seasonal employees, volunteers and nonprofit organizations and ensures availability of project materials and resources and reviews and reports on results.

Botanic Technician II is distinguished from the Botanic Specialist I, in that incumbents in the latter class plan and develop broader, more complex projects, develop partnerships with community and nonprofit organizations, develop communications and promotional materials, and secure funding.

**ESSENTIAL DUTIES AND RESPONSIBILITIES**

Any one position in this class may not perform all the duties listed below, nor do the listed examples of duties include all similar and related duties that may be assigned to this class.
