33.675.200	Application Requirements
33.675.300	Standards
33.675.400	Recording an Approval

33.675.010 Purpose

This chapter states the procedures and regulations for removing lot lines within a site to create one lot. The regulations ensure that lot consolidation does not circumvent other requirements of this Title, and that lots and sites continue to meet conditions of land use approvals. The lot consolidation process described in this chapter is different from (and does not replace) the process used by the county to consolidate lots under one tax account. A tax consolidation does not affect the underlying platted lots. A lot consolidation results in a new plat for the consolidation site.

33.675.050 When These Regulations Apply

A lot consolidation may be used to remove lot lines within a site. The applicant may also choose to remove such lot lines through a land division. A lot consolidation may be required by other provisions of this Title.

33.675.100 Review Procedure

- **A. Generally.** Lot consolidations are reviewed through Type Ix procedure.
- **B. Sites in PUDs or PDs.** If any portion of the site is within a Planned Unit Development (PUD) or Planned Development (PD), an amendment to the PUD or PD is also required. The amendment to the PUD or PD must be reviewed concurrently with the lot consolidation.

33.675.200 Application Requirements.

An application for a lot consolidation must contain the following:

A. Application form. Two copies of the completed application form bearing an accurate legal description, tax account numbers and location of the property. The application must include the name, address, telephone number, and original signatures of the applicant and all property owners and the nature of the applicant's interest in the property.

B. Surveys.

1. A survey of the site prepared, stamped and signed by a registered land surveyor showing all existing property lines and structures. The survey may not be larger than 18 inches by 24 inches in size. The survey must be drawn to a scale no less than 1 inch = 200 feet, and no greater than 1 inch = 20 feet;

675-1

- 2. If the site is part of an existing plat, a copy of the recorded plat; and
- 3. A Final Plat Survey showing the single consolidated lot. Copies of the Final Plat Survey must be drawn to scale and of a format, material, and number acceptable to the Director of BDS. The following statement must be on the Final Plat Survey: "This plat is subject to the conditions of the City of Portland Case File No. LUR..."

C. Other.

- 1. Legal descriptions. Two copies of the legal descriptions for each of the lots or tracts within the lot consolidation site. The legal descriptions must be prepared and signed by a registered land surveyor; and
- 2. Title reports. A current title report issued by a title insurance company verifying ownership and detailing any deed restrictions; and
- 3. Narrative. A written narrative explaining how the regulations and approval criteria of this chapter have been met;
- 4. Fees. The applicable filing fees.

33.675.300 Standards

A lot consolidation must meet the following standards:

- **A. Lots.** Consolidated lots must meet the standards of Chapters 33.605 through 33.615, with the following exceptions:
 - 1. Lot dimension standards.
 - a. Minimum lot area. If the area of the entire lot consolidation site is less than that required of new lots, the lot consolidation site is exempt from minimum lot area requirements;
 - b. Maximum lot area. If any of the lots within the lot consolidation site are larger than the maximum lot area allowed, the lot consolidation site is exempt from maximum lot area requirements;
 - c. Minimum lot width. If the width of the entire lot consolidation site is less than that required of new lots, the lot consolidation site is exempt from minimum lot width requirements;
 - d. Minimum front lot line. If the front lot line of the entire lot consolidation site is less than that required of new lots, the lot consolidation site is exempt from minimum front lot line requirements;
 - e. Minimum lot depth. If the depth of the entire lot consolidation site is less than that required of new lots, the lot consolidation site is exempt from minimum lot depth requirements.
 - 2. Maximum density. If the consolidation brings the lot consolidation site closer to conformance with maximum density requirements, the consolidation does not have to meet maximum density requirements;

675-2

- 3. Lots without street frontage. If the lot consolidation consolidates lots that do not have street frontage with a lot that has street frontage, the consolidation does not have to meet minimum density and maximum lot area requirements;
- 4. Through lots. If any of the existing lots within the lot consolidation site are through lots with at least one front lot line abutting an arterial street, then the consolidated lot may be a through lot;
- 5. Split zoning. If any of the existing lots within the lot consolidation site are in more than one base zone, then the consolidated lot may be in more than one base zone.
- **B.** Conditions of land use approvals. Conditions of land use approvals continue to apply, and must be met.

33.675.400 Recording an Approval

The Final Plat Survey, legal descriptions, and the deed for the consolidated lot must be recorded with the County Recorder and Surveyor within 90 days of approval by the Director of BDS.
