

PC00_M99_DLGA20 – Use of Wage Types in Payroll

Overview:

See which individual wage types are in a cumulation wage type.

Transaction:

PC00_M99_DLGA20 – Use of Wage Types in Payroll

Hints / Tips:

- Not all cumulation wage types are currently used.
- Individual wage types listed can include SAP out-of-the-box wage types which are not in use.
- Some of the descriptions on the cumulation wage types are confusing/misleading.

If you have any questions, please contact EBS Payroll Support

Procedure:

Perform the following steps in order to complete this

Step 1: Enter transaction code **PC00_M99_DLGA20**

Step 2: When the transaction opens, leave the default information and click **Execute**.

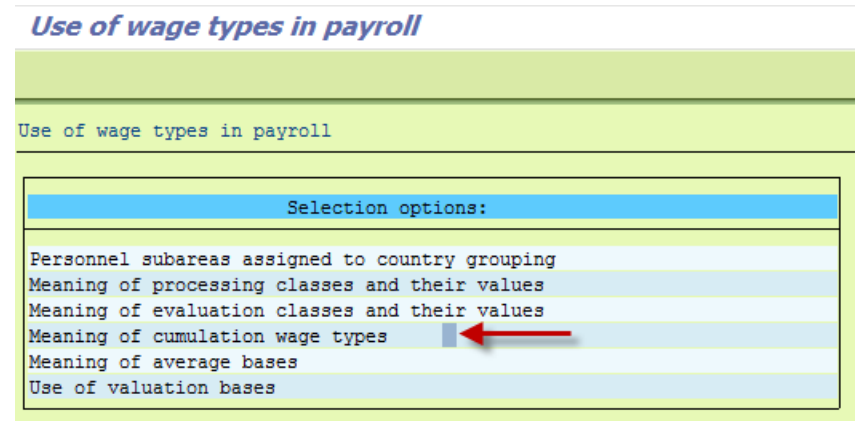

The screenshot shows the SAP transaction 'Use of wage types in payroll'. The window title is 'Use of wage types in payroll'. The 'Selection' section contains the following fields:

Country grouping	10		
Wage type		to	
Validity of wage type	10/23/2013	to	10/23/2013
Display logical views	<input type="checkbox"/>		

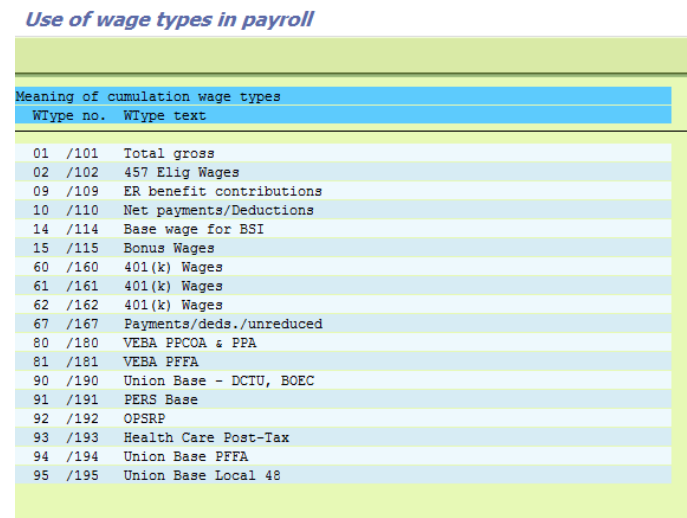

The 'Output' section contains the following options:

Tables	<input checked="" type="radio"/>
Tree structure	<input type="radio"/>
Continuous list	<input type="radio"/>

Step 3: Double-click on the line “**Meaning of cumulation wage types**”

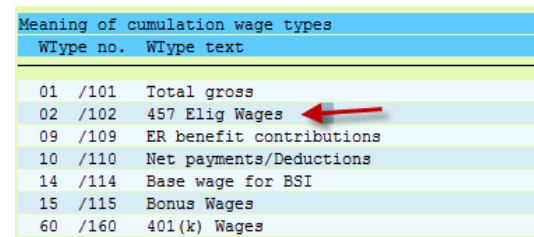

Step 4: This shows each cumulation wage type in the system.

To see which individual wage types are included in a culumation, double-click on that wage type.

Example: if you wanted to see all wage types that are subject to 457 deferred comp, you would look at /102 – 457 Eligible Wages.

This shows the individual wage types for /102 – 457 Eligible Wages
