

(Tree species cont.)

- 1 Magyar ginkgo *Ginkgo biloba* ‘Magyar’ on west side of NE 31st. – 2004
1 Frontier elm *Ulmus* ‘Frontier’ on west side of NE 31st. – 2003
1 Purple European beech *Fagus sylvatica* ‘Riversii’ on west side of NE 31st. – 2004
- 3041** 1 Silver linden *Tilia tomentosa* ‘Sterling’ – 2004
2 Tupelos *Nyssa sylvatica* – on west side of NE 31st. – 2004
- 3116** 2 American hornbeams *Carpinus caroliniana* Native to eastern U.S. 2004 See 1134
- 5955** NE 32nd 1 Bambooleaf oak *Quercus myrsinaefolia* – 2003 Evergreen oak from Japan with unlobed leaves. New growth briefly tinged purplish.
- 3217** 2 Sweet gums *Liquidambar styraciflua* See 2207
- 3236** 1 Deodar cedar *Cedrus deodara* in yard
- 3253** 2 Honey locusts *Gleditsia triacanthos* – on east side of NE 32nd Place.
- 3267** 1 Atlas cedar *Cedrus libanii* ssp. *atlantica* in yard.
- 3425** 1 Oregon white oak *Quercus garryana* – 2004
- 3576** 1 Natchez crape myrtle *Lagerstroemia x fauriei* ‘Natchez’ – 2003 Compact hybrid has showy white flowers for long period in summer, cinnamon-colored bark, red to orange fall color.
- 3624** 2 Sweet gums *Liquidambar styraciflua* See 2207
- 3627** 1 Tricolor European beech *Fagus sylvatica* ‘Roseomarginata’

Ainsworth Linear Arboretum trees

- Beech, purple European *Fagus sylvatica* ‘Riversii’ – 2617 Ainsworth and SW corner of NE 31st and Ainsworth
- Beech, tricolor *Fagus sylvatica* ‘Roseomarginata’ – 3627 Ainsworth
- Cedar, Atlas *Cedrus libanii* ssp. *atlantica* – in yards at 2406 and 3267 Ainsworth
- Cedar, Deodar *Cedrus deodara* – in yards at 1636 and 3236 Ainsworth
- Crape myrtle, *Lagerstroemia x fauriei* ‘Natchez’ 3576 Ainsworth
- Dogwood, Chinese *Cornus kousa* – 1306 and 2417 Ainsworth
- Elm, Frontier *Ulmus* ‘Frontier’ – SW corner of 31st Street and Ainsworth

- Eucalyptus, snow gum *Eucalyptus pauciflora* ssp. *niphophila* – in yard at 1804 Ainsworth
- Ginkgo *Ginkgo biloba* ‘Magyar’ – 879 Ainsworth and SW corner of 31st Street and Ainsworth
- Hawthorn, Lavalley *Crataegus x lavalleyi* - 1426 Ainsworth
- Honey locust *Gleditsia triacanthos* – NE corner of 32nd Place and Ainsworth
- Hophornbeam, American *Ostrya virginiana* – 1204 Ainsworth
- Hornbeam, American *Carpinus caroliniana* – 3116 Ainsworth, SE corner of 12th Street
- Hornbeam, Heartleaf *Carpinus cordata* – 1134 Ainsworth (between 2 Japanese hornbeams)
- Hornbeam, Japanese *Carpinus japonica* – 1134 Ainsworth
- Horse chestnut *Aesculus hippocastaneum* – 649 Ainsworth
- Katsura *Cercidiphyllum japonicum* – 1735 and 2941 Ainsworth (Church building)
- Kentucky coffee tree *Gymnocladus dioica* – 2337 and 2529 Ainsworth
- Linden, Silver *Tilia tomentosa* ‘Sterling’ – 3041 Ainsworth
- Magnolia, saucer *Magnolia x soulangeana* – 833, 1814 and 1945 Ainsworth
- Magnolia, southern *Magnolia grandiflora* – 1306, 1837 and 2711 Ainsworth
- Magnolia, Yellow Fever *Magnolia x acuminata* ‘Yellow Fever’ - 2306 and 3036 Ainsworth
- Maple, tatarian *Acer tataricum* 842 Ainsworth
- Maple, hedge *Acer campestre* – 842 Ainsworth, NE corner of 30th Street and Ainsworth
- Maple, paperbark *Acer griseum* – 710 Ainsworth
- Mountain ash, Korean *Sorbus alnifolia* – on Ainsworth in front of house at 5949 NE 19th
- Oak, bambooleaf *Quercus myrsinaefolia* – 710 Ainsworth and on Ainsworth at 5955 NE 32nd
- Oak, Oregon white *Quercus garryana* – 1329 and 3425 Ainsworth
- Oak, scarlet *Quercus coccinea* - 3027 Ainsworth
- Persian ironwood *Parrotia persica* - 2516 Ainsworth
- Redbud, Eastern *Cercis canadensis* – 1715 Ainsworth
- Redwood, Coastal *Sequoia sempervirens* - in yards at 2306 Ainsworth
- Silverbell, mountain *Halesia monticola* – NW corner of Ainsworth and 24th

(Tree species cont.)

- Sweet gum *Liquidambar styraciflua* – 2207, 2815, 2827, 2835, 3217 and 3624 Ainsworth
- Tulip tree *Liriodendron tulipifera* – 1929 Ainsworth
- Tupelo *Nyssa sylvatica* – NW corner of 31st Street and Ainsworth
- Yellowwood *Cladrastis kentuckia* – 2217 Ainsworth, and three along Ainsworth in front of Alberta Park

One of our urban forest's best defenses against devastating diseases and pests is planting many different kinds of trees. Trees planted by Friends of Trees on Ainsworth in 2003-05 showcase a wide variety adapted to our climate and city conditions. Many are rare and greatly add to Portland's tree diversity.

The Ainsworth Linear Arboretum was conceived by Concordia Neighborhood Tree Liaison and Friends of Trees volunteer Jim Gersbach. For more information about planting street trees, go to the Urban Forestry Division website at www.portlandparks.org or call Urban Forestry Division at 503-823-4489 for a free site inspection and planting permit. To get involved in a community tree planting contact Friends of Trees at 503-282-8846 or www.friendsoftrees.org.

Please enjoy the Arboretum from the sidewalk.

Ainsworth Linear Arboretum

The Ainsworth Linear Arboretum is located along NE Ainsworth Boulevard from NE 6th Ave to NE 37th, in Portland Oregon. Numbers on this map correlate to the house address. The year refers to the year the tree was planted by Friends of Trees.

- 649** 2 horse chestnuts *Aesculus hippocastaneum* European native. Nuts are poisonous.
- 710** 2 Paperbark maples (*Acer griseum*). - 2003 1 Bambooleaf oak *Quercus myrsinaefolia* Rare Asian evergreen oak. - 2003
- 842** 1 Queen Elizabeth hedge maple *Acer campestre*. - 2003 1 Tatarian maple *Acer tataricum*. -2003 in the middle
- 879** 3 Magyar ginkgos *Ginkgo biloba* ‘Magyar’ - 2004 Chinese native can live centuries. Resists air pollution. Disease and pest free. Yellow fall color. Fruitless male clone.
- 941** 2 Paperbark maples *Acer griseum* Native to China. Red fall color, attractive peeling bark.
- 1134** 2 Japanese hornbeam *Carpinus japonica* Mostly troublefree and tidy – 2005. 1 Heartleaf hornbeam *Carpinus cordata*. - 2005

- 1204** 2 American hophornbeams *Ostrya virginiana*. 2004 2 American hornbeams *Carpinus caroliniana* – on 12th Street. – 2004 Native to the eastern U.S., papery nutlets in fall. Leaves cling to tree into winter. Extremely rare in Portland. Eastern U.S. native with strong wood, orange-tinged fall color, papery nutlets.
- 1306** 1 Chinese dogwood *Cornus kousa* – 2003 1 Southern magnolia *Magnolia grandiflora* ‘Edith Bogue’. -2003
- 1329** 1 Oregon white oak *Quercus garryana* 2003 Native from British Columbia to Oregon. Can live 300 years.
- 1426** Lavalley Hawthorn *Crataegus x lavalleyi*
- 1636** 1 Deodar cedar *Cedrus deodar* in yard
- 1715** 1 Eastern redbud *Cercis canadensis* Rosy purple flowers in spring. Fast growth but short lived.
- 1735** 2 Katsura *Cercidiphyllum japonicum* Attractive fall color. Native to Japan and China, needs summer water to look best. Leafs out and drops leaves early.
- 1804** 3 Snow gums *Eucalyptus pauciflora* ssp. *niphophila* – in yard. Planted 2004
- 1814** 1 Saucer magnolia *Magnolia x soulangeana*
- 5949** NE 19th 1 Korean mountain ash *Sorbus alnifolia* –

- westernmost of 2 trees. - 2004
- 1837** 1 Southern magnolia *Magnolia grandiflora* Evergreen tree from the eastern U.S. Large scented white flowers off and on through summer.
- 1929** 2 Tulip trees *Liriodendron tulipifera* From the southern and eastern U.S. Greenish-white flowers often hidden by leaves. Yellow fall color. Attracts aphids.
- Alberta Park** 3 Yellowwoods *Cladrastis kentukea*. -2004
- 2207** 2 Sweet gums *Liquidambar styraciflua* Often breaks in ice storms. Shallow surface roots lift sidewalks. Grown for pretty fall color but produces large crops of spiky “gumball” fruits that litter ground.
- 2217** 1 Yellowwood *Cladrastis kentukea* - 2004 Wisteria-like white flowers, yellow fall color. Native to the Appalachias.
- 2306** 1 Yellow Fever magnolia *Magnolia x acuminata* ‘Yellow Fever’. - 2004 1 Coastal redwood *Sequoia sempervirens* in yard
- 2337** 1 Kentucky coffee tree *Gymnocladus dioicus* 2004 2 Mountain silverbells *Halesia monticola* on west side of NE 24th. White flowers in spring - 2004
- 2406** 1 Atlas cedar *Cedrus libanii* ssp. *atlantica* in yard
- 2417** 1 Chinese dogwood *Cornus kousa* 2004 China native

- with showy white flowers, large pink fruits, red fall color, attractive mottled bark with age. Needs summer watering to do best.
- 2516** 2 Persian ironwoods *Parrotia persica*. - 2004
- 2529** 1 Kentucky coffee tree *Gymnocladus dioicus* 2004 Eastern U.S. native with sculpted bark, yellow fall color.
- 2617** 1 European beech *Fagus sylvatica* ‘Riversii’ Purple leaves, shade tolerant. Native to Europe.
- 2711** 1 Southern magnolia *Magnolia grandiflora* See 1837
- 2815** 1 Sweet gum *Liquidambar styraciflua* See 2207
- 2827** 2 Sweet gums *Liquidambar styraciflua* See 2207
- 2835** 3 Sweet gums *Liquidamber styraciflua* 1 Oregon white oak *Quercus garryana* in yard. See 2207 See 1329
- 2941** 5 Katsura *Cercidiphyllum japonicum* See 1735
- 3027** 2 Scarlet oaks *Quercus coccinea* - 2004 Strong-rooted, majestic tree can live hundreds of years. Magnificent red fall color. Native to eastern U.S.
- 3036** 1 Yellow Fever magnolia *Magnolia x acuminata* ‘Yellow Fever’ on Ainsworth –2004
