

Heritage Trees of Portland

KATSURA (*Cercidiphyllum japonicum*) CERCIDIPHYLLACEAE

- Native to Japan.
- Height can exceed 100' but usual is <80'.
- Leaves round, heart-shaped. Emerge pink, green in summer, and pink/orange in fall.
- Male and female are separate trees. Flowers and fruit inconspicuous.
- Tree can be multi-trunked and wide-spreading when mature.
- Somewhat common in Portland. These two Heritage Trees are among largest in city.
