

Heritage Trees of Portland

COULTER PINE (*Pinus coulteri*) PINACEAE

- Native to central California to Baja on rocky slopes.
- Height seldom exceed 100'.
- Needles are 3 to a bundle, 6-14" long, stiff and sharp-pointed. Overall color of tree is green-blue.
- Seed cones are most massive of any pine, 8-14" long with a weight of 5-8 lb. Cone scales have "claws" at end.
- Very rare in Portland. This Heritage Tree was planted by Joseph A. Manning in the 1920s.

181 Coulter pine (*Pinus coulteri*)
