

Heritage Trees of Portland

JAPANESE RED PINE (*Pinus densiflora*) PINACEAE

- Native to Japan, China, Korea.
- Record heights in wild to >160'.
- Needles are 2 to a bundle, 3-5" long.
- Seed cones are abundant, 1.5-2" long, remain on tree for several years.
- Bark is orangey-red, except gray on trunk of old trees.
- Relatively rare in Portland except as the small 'Tanyosho' which resembles a shaving brush when pruned.

67 Japanese red pine (*Pinus densiflora*)

68

cr. NE 39th & Couch
