

Heritage Trees of Portland

MONTEREY PINE (*Pinus radiata*) PINACEAE

- Native to central California coast.
- Height can exceed 150'.
- Needles usually 3 per bundle, 2.5-5" long, shiny bright green.
- Seed cones 3-7" long, asymmetrical, persisting on tree several years.
- Probably the most widely cultivated of the pines, it is farmed in New Zealand for timber.
- Very rare in Portland. This Heritage Tree was planted by Joseph A. Manning in the early 1920s.

18 Monterey pine (*Pinus radiata*)
