

Heritage Trees of Portland

UMBRELLA PINE (*Sciadopitys verticillata*) TAXODIACEAE

- Native to Japan only on island of Honshu.
- Height to 150', <100' in cultivation.
- Needles 3-6" long, in whorls resembling umbrella ribs; bright green.
- Seed cones 2-4" long, ovoid, first green then brown.
- Rather common in Portland, many about same size.
- #189 and #190 were planted around 1920.

189 Umbrella pine (*Sciadopitys verticillata*)
190

2870 NW Cornell Rd*

189: H 27, S 16, C 4.1

190: H 32, S 19, C 4.4
