

# Crossbikes

The Crossbike is a new tool being developed to enhance bicycle safety where high volume streets un-signalized intersections with bikeways.

Think of it as a crosswalk for bicycles. Pavement markings will highlight to approaching traffic potential conflicts with crossing bicycles.

The project would like to use this tool once it is finally approved for use at the following intersections:

- NE 57<sup>th</sup> Ave/ Thompson
- SE 53<sup>rd</sup> Ave/ Stark
- SE 53<sup>rd</sup> Ave/ Belmont
- SE 52<sup>nd</sup> Ave/ Hawthorne
- SE 52<sup>nd</sup> Ave/ Lincoln
- SE 52<sup>nd</sup> Ave/ Woodward
- SE 57<sup>th</sup> Ave/ Harold
- SE 57<sup>th</sup> Ave/ Woodstock Blvd
