

WHAT IS CAR SHARE?

Car share allows people to rent a car or truck for short trips, like to the grocery store, and pay less money. Vehicles are available to rent by the minute, hour or day, and Portland has thousands of cars throughout the city ready for you to drive.

How does car share differ from traditional car rental?

Car share vehicles are available to reserve and rent 24 hours a day, have fuel and insurance costs built in with rental prices and are parked throughout the city in convenient, accessible locations. With peer-to-peer car share you can even rent from your neighbor or share your own car to make money.

You have car share options in Portland!

Use this simple guide to choose which one works best for you.
