Vision Zero Action Plan

DRAFT OUTLINE

An action-based plan

This is an action-based implementation strategy, not a long term plan

Safe City, Safe Streets (*Why*)

One death on our city streets is too many.

Portland takes the issue seriously

Portland has long pushed for people-focused transportation system; Vision Zero continues that push

Causes of Fatal and Serious Injury Crashes in Portland (*What*)

Behavior

Impairment

Speeding

Dangerous behaviors (includes distracted driving, aggressive driving, and failure to yield)

Making all roads safer

Data shows a distinct set of roadway characteristics that result fatal and serious injury crashes: 4- and 5-lanes, higher speed, wider streets

Vision Zero will target investment in these areas – but policies will improve safety for vulnerable road users throughout the city

Vision Statement

Working together, we will take equitable and data-driven actions that will eliminate serious injuries and deaths for all who share Portland streets by 2025.

Guiding Principles

[Note that these are abbreviated; identify where complete principles are located in the text]

The plan will be **equitable**.

Actions in the plan will be **data-driven** to address the factors that lead to serious injury and death on Portland roadways.

The plan will be **accountable**, setting out clear objectives and measure performance against them.
