

## **Choosing a Certified Irrigation Contractor**

Summer landscape irrigation is an important part of creating vibrant outdoor spaces. Take time at the beginning of the summer and periodically throughout the season to turn on your irrigation system and watch for any potential problems. In-ground automatic sprinkler systems require regular maintenance and schedule adjustments to perform well and water-efficiently. Hiring a knowledgeable contractor can ensure your system continues to perform while maintaining a healthy landscape for years to come.

Below is a list of landscape and irrigation contractors who are licensed contractors in the State of Oregon, certified by the Irrigation Association (IA), and partners with the US Environmental Protection Agency (EPA) WaterSense Program.

The Portland Water Bureau lists these contractors in order to provide customers with information regarding WaterSense certification by EPA of contractors in Oregon; by listing them the Portland Water bureau does not recommend or endorse any listed contractor. For a complete list of WaterSense Irrigation contractors please visit http://epa.gov/watersense/partners/

<b>EPA</b> Water	Irrigation Association				Name	Company	Phone	Email	Customers Served
Sense	CIC	CID	CID CLWM CLIA
