# Fantastic Habitats: Create Your Own!

Create your own animal in its habitat. Use labels to show:

- **Food:** What does your animal eat?
- **Water:** Where does your animal get water?
- **Shelter:** What kind of shelter does your animal create? Where is it?
- **Adaptations:** What tricks for survival does your animal have?
- **What else** is found in your habitat? Are there plants or other animals?

Other things to think about:

- Does your animal need a lot of space? A little space?
- Does it have any predators?
- What is the climate like in your habitat?

The name of my animal is \_\_\_\_\_
