General

33.100.010 Purpose

The Open Space zone is intended to preserve and enhance public and private open, natural, and improved park and recreational areas identified in the Comprehensive Plan. These areas serve many functions including:

- Providing opportunities for outdoor recreation;
- Providing contrasts to the built environment;
- Preserving scenic qualities;
- Protecting sensitive or fragile environmental areas;
- Enhancing and protecting the values and functions of trees and the urban forest;
- Preserving the capacity and water quality of the stormwater drainage system; and
- Providing pedestrian and bicycle transportation connections.

33.100.020 Short Name

The short name and map symbol of the Open Space zone is OS.

33.100.030 Where the Zone Is Applied

The Open Space zone is applied to all land designated as "Open Space" on the Comprehensive Plan map. In addition, property owners may request an open space designation for open or natural areas that meet the purpose of the zone, and for view, conservation, or similar easements that can be shown as open space. See Chapter 33.810, Comprehensive Plan Amendments.

33.100.040 Other Zoning Regulations

The regulations in this chapter state the allowed uses and the development standards for the open space zone. Sites in overlay zones, plan districts, or with designated historic landmarks are subject to additional regulations. The Official Zoning Maps indicate which sites are subject to the additional regulations. Specific uses or development types may also be subject to regulations in the 200s series of chapters.

Use Regulations

33.100.100 Primary Uses

- A. Allowed uses.** Uses allowed in the open space zone are listed in Table 100-1 with a "Y". These uses are allowed if they comply with the development standards and other regulations of this Title. Being listed as an allowed use does not mean that a proposed development will be granted an adjustment or other exception to the regulations of this Title. In addition, a use or development listed in the 200s series of chapters is also subject to the regulations of those chapters.
- B. Limited uses.** Uses allowed that are subject to limitations are listed in Table 100-1 with an "L". These uses are allowed if they comply with the limitations listed below and the development standards and other regulations of this Title. In addition, a use or development listed in the 200s series of chapters is also subject to the regulations of those chapters. The paragraphs listed below contain the limitations and correspond with the footnote numbers from Table 100-1.
1. Retail Sales And Service. This regulation applies to all parts of Table 100-1 that have note [1]. Retail Sales And Services uses are conditional uses only when they are associated with a Park And Open Areas use. In other situations they are prohibited.

2. Parks And Open Areas. This regulation applies to all parts of Table 100-1 that have note [2]. Uses in the Park And Open Areas category are allowed by right. However, certain accessory uses and facilities which are part of a Park And Open Areas use require a conditional use review. These facilities are listed below.
 - a. Swimming pools.
 - b. Cemeteries, including mausoleums, chapels, and similar accessory structures associated with funerals or burial.
 - c. Golf courses including club houses, restaurants and driving ranges.
 - d. Boat ramps.
 - e. Parking areas.
 - f. Recreational fields for organized sports. Recreational fields used for organized sports are subject to the regulations of Chapter 33.279, Recreational Fields for Organized Sports.
3. Radio Frequency Transmission Facilities. This regulation applies to all parts of Table 100-1 that have note [3]. Some Radio Frequency Transmission Facilities are allowed by right. See Chapter 33.274.
4. Community Services. This regulation applies to all parts of Table 100-1 that have note [4]. Most Community Service uses are a conditional use. However, short term housing and mass shelters are prohibited.
5. Basic Utilities. This regulation applies to all parts of Table 100-1 that have note [5].
 - a. Basic Utilities that serve a development site are accessory uses to the primary use being served.
 - b. Small Scale Energy Production that provides energy for on-site or off-site use are considered accessory to the primary use on the site. Installations that sell power they generate—at retail (net metered) or wholesale—are included. However, they are only considered accessory if they generate energy from biological materials or byproducts from the site itself, or conditions on the site itself; materials from other sites may not be used to generate energy. The requirements of Chapter 33.262, Off Site Impacts, must be met;
 - c. All other Basic Utilities are conditional uses.
6. Manufacturing and Production. This regulation applies to all parts of Table 100-1 that have note [6]. Utility Scale Energy Production from Large Wind Turbines is a conditional use. All other Manufacturing And Production uses are prohibited.
7. Agriculture. This regulation applies to all parts of Table 100-1 that have note [7]. Agriculture is an allowed use. Where the use and site meet the regulations of Chapter 33.237, Food Production and Distribution, the applicant may choose whether it is allowed as a Market Garden.

- C. Conditional uses.** Uses which are allowed if approved through the conditional use review process are listed in Table 100-1 with a "CU". These uses are allowed provided they comply with the conditional use approval criteria for that use, the development standards, and other regulations of this Title. Uses listed with a "CU" that also have a footnote number in the table are subject to the regulations cited in the footnote. In addition, a use or development listed in the 200s series of chapters is also subject to the regulations of those chapters. The conditional use review process and approval criteria are stated in Chapter 33.815, Conditional Uses.
- D. Prohibited uses.** Uses listed in Table 100-1 with an "N" are prohibited. Existing uses in categories listed as prohibited may be subject to the regulations of Chapter 33.258, Nonconforming Uses and Development.

33.100.205 Fences

- A. Purpose.** The fence standards promote the positive benefits of fences without negatively impacting the community or endangering public or vehicle safety. Fences can create a sense of privacy, protect children and pets, provide separation from busy streets, and enhance the appearance of property by providing attractive landscape materials. The negative effects of fences can include the creation of street walls that inhibit police and community surveillance, decrease the sense of community, hinder emergency access, lessen solar access, hinder the safe movement of pedestrians and vehicles, and create an unattractive appearance. These standards are intended to promote the positive aspects of fences and to limit the negative ones.
- B. Types of fences.** The standards apply to walls, fences and screens of all types whether open, solid, wood, metal, wire, masonry, or other material.
- C. Location.** Fences may be 8 feet tall at the property line. Fences taller than 8 feet must be set back from the property line one additional foot for each additional foot of fence height over 8 feet. A fence within 30 feet of a street lot line may not be more than 10 percent sight obscuring.
