      - Civil Rights Section of the Oregon Bar

## II. PCCEP CHALLENGES

- **Community Engagement Plan Recommendations**
  - o With the exception of four recommendations approved at the June meeting, PCCEP has been unable to provide concrete recommendations on the PPB's Community Engagement plan.
- **Community Attendance**

## PCCEP Quarterly Report

Number 002, Approved July 23, 2019

- 
- This continues to be a challenge. While attendance was up for the April full board meeting, attendance has been sparse at best for many subcommittee meetings. We will need to work to publicize said meetings and invite public input in a more direct way.
  - PCCEP will continue to circulate the location of the meetings in an effort to engage all communities and develop additional mechanisms for spreading the word, including an intentional efforts to site meetings in North and Northeast Portland.

- **Subcommittees**

- Attendance remains a concern for subcommittees, so we are working to encourage alternates to join subcommittees even prior to their elevation to the full board. In addition, the subcommittees have been slow to send recommendations to the full board on the Community Engagement Plan. This is, in part, due to the delay in receiving survey results from DHM/PPB, but we are still seeking to streamline the subcommittee process in months to come.

- **PCCEP Membership Turnover**

### III. COMMUNITY CONCERNS.

- **Topics/Issues**

- In April, we used a major portion of the full board meeting for an open mic session on community engagement. The audience/PCCEP split into two groups and the following topics were raised by community members:
  - School resource officers
  - Outreach and engagement
  - Perceived lack of trust and accountability
  - Inclusiveness,
  - Racial profiling
  - How to empower the voice of the community

- **Community Proposals for Policy Recommendations**

- PCCEP has received several recommendations directly from the public. However, we have not formalized a process for considering these recommendations. It is likely that the process will flow through the subcommittees, which will determine when/whether to bring recommendations before the full board, however the process is still TBD and will be discussed at Steering Committee.
