

PCCEP Recommendation

Number 005, May 28, 2019

MEMBERS IN FAVOR

Robert Dye, Sebastian Chevalier, Lakayana Drury, LaKeesha Dumas, Sharon Gary-Smith, Andrew Kalloch, Britt Masback, Michelle Lang, Patrick Nolen, Yolonda Salguiero, Sam Sachs

-
- (A) We recommend PPB modify the title of the first metric to read, *“Survey Data Detailing Public Trust and Confidence in PPB.”*

Adopted:  3.6.20
Chief of Police Date

After consultation with the COCL, PPB suggests that the title be: “Efforts Detailing Public Trust and Confidence in PPB.” The COCL and PPB believe “Survey Data” is too narrow as it is only one domain.

- (B) We recommend PPB explicitly add the following sentence to its metric concerning collective engagement: *“PPB is expected to report on strategies used to engage with communities that have historically been difficult to reach, including but not limited to, people with mental illness and houseless individuals.”*

PPB accepts this addition.

Adopted:  3.6.20
Chief of Police Date

PCCEP Recommendation

Number 005, May 28, 2019

training by personnel from outside of Portland, and changes to policies and practices inspired by learnings from other jurisdictions.

PPB is willing to add a fifth metric but with more specificity as follows:

Title: Integrating Best Community Engagement Practices From Police Departments Across the Country

Metric: PPB is expected to report on efforts made to identify learnings from other departments and integrate, as appropriate, those learnings into the Bureau's community engagement work.

Note: the Bureau agrees that things the Bureau might identify could include attendance at conferences, training by outside personnel and changes to practices inspired by learnings from other jurisdictions but does not believe that should specifically be included in the metric itself.

Adopted: *Gambetta* *3.5.20*
Chief of Police **Date**
