One corner.

24 hours.

Lots of bikes.

*Every Bike Counts*

Portland’s first 24-hour bike count

Thursday May 14, noon—Friday May 15, noon

SE Ankeny & 28th Ave

Be there, be counted.
Every Bike Counts

Thursday May 14, noon—Friday May 15, noon

SE Ankeny & 28th Ave

Thank you to our sponsors!
PORTLAND’S 24-Hour Bike Count

Every Thursday, May 14—Friday, May 15
Bike 12 noon—12 noon (24-hours!)
Counts SE Ankeny & 28th Ave

May is Bike Month—let’s celebrate!
People who ride bikes are our FRIENDS, FAMILY, NEIGHBORS, EMPLOYEES, CUSTOMERS AND YOU! They bike to work, school, shops, and just about everywhere else.
We want to see how many of these bike riders pass through a single intersection in 24-hours, and say “thank you!” to each and every one because Every Bike Counts.

Good data informs good decisions, which help PBOT keep our streets safe and our traffic moving.

The top site counted last summer (N Vancouver & Russell) is estimated to see close to 6,000 people on bikes a day!

Every Bike Counts

Summer bike counts completed by volunteers provide estimates for how many bikes travel through a particular intersection every day.

Does anyone ride their bike at 4am?

People who ride bikes contribute to a healthier environment, which benefits everyone.

We think lots of Portlanders are biking beyond the peak hours, and to places other than work.

Summer bike counts are taken only during peak car-commute hours (mostly 4-6pm).

PBOT needs volunteers to help count at close to 250 locations across Portland this summer.

May is National Bike Month—let’s celebrate!

The intersection at SE Ankeny & 28th sees about 2,500 bikes a day—or more!
