Carmen Merlo	Office of Management & Finance	Wonder Women lead the charge to save others. Wonder-Responders demonstrated their commitment to help others during a long 2-year COVID-19 response that tested the limits of emergency response capacity to extremes. Every person was affected and touched by the pandemic. During this prolonged response and with many major adjustments for all in the City, additional emergencies arose – a heat dome with deadly excessive heat, snow and ice storms, power outages, and a chlorine shortage. The City set up shelters and vaccination clinics, we planned for continuity of operations, we discussed safety protocols and implemented them, and the City Emergency Coordination Center along with other Bureaus, remained activated on duty throughout this tumultuous time. Our female colleagues and work friends met the pandemic challenge, adapting in ways we never knew would be needed. I am proud of all of their efforts, and grateful for their steady resolve, their resilience, and their tremendous support. Some of my heroes may not think they were serving as responders, because they were doing their regular work, but it is often the foundational core duties that others perform that support successful emergency response. I greatly value that support and feel that everyone had a role in keeping the City functional, and in ensuring each others' safety – We got through this together. Wonder-Responders and the people who support their efforts all put on their COVID-Capes and became COVID-Conquerers, which is wonderful indeed!	Kim Parsons Anderson	Portland Water Bureau

Maty Sauter	Office of Management & Finance	Maty has shown some exceptional leadership, innovative thinking, and passionate dedication to her work at OMF and especially for advocacy in developing mature asset management throughout the City. She led other City asset managers in coordinating some very complex, well-executed, infrastructure tours across multiple bureau sites for Council members and their staff. The coordination, along with great informational presentation on asset management, required a lot of her dedicated time, thought, and energy. She has pushed for showing the connections between asset management and equity, resilience, and affordability in a way that has benefited the understanding of asset management's value throughout the City. Pauline Goble	Office of Management & Finance	Pauline is an energetic, enthusiastic, extremely professional, and highly intelligent woman. For seven years she has led the helm of Properties in the Office of Management & Finance - Division of Asset Management - Facilities with extremely tenacious and vibrant skill. She is singlehandedly responsible for an entire network of relationships with diverse bureau, from Parks to PBOT to Police, all with different responsibilities and quirks. It takes a woman with the breadth and width of her intelligence and a very gracious air to be able to manage it. Although she is not in a managerial role, she is very much a person who can manage a team, and I am very lucky to have been placed on the Properties team. Alongside Maty Sauter, she is the reason why working at the City of Portland is fun and exciting. She is very much aware of how important she is to all of us, and her cheerfulness is just as necessary and useful in our everyday work. Without her, Properties would not be able to do the important work that it does. She managed the spate of property management during the COVID-19 crisis and is helping to wrangle projects with HUCIRP and other city initiatives to improve life in the City of Portland. I am so very lucky to have her as a coworker.
