Alisha Moreland-Capuia Bio:

Dr. Alisha Moreland-Capuia grew up in Portland, Oregon. She graduated from Stanford University in 2002 with a B.S. in biological sciences and a minor in urban studies. She earned her Doctor of Medicine from the George Washington University School of Medicine in 2007. She completed four years of psychiatry residency and an addiction fellowship at Oregon Health and Science University. She is double board certified in addiction and general adult psychiatry.

She has trained judges, parole officers, school teachers, community members and faith-based institutions in the areas of cultural responsiveness, brain development and trauma informed approaches and practices. She built a program entitled Healing Hurt People Portland – a hospital based, trauma-informed, community focused youth violence prevention program that serves young males of color between the ages of 15-33 who've been stabbed, shot and or assaulted.

She has committed her professional career to changing systems to optimally serve youth. Dr. Alisha is also the Co-Founder of The Capuia Foundation and believes in serving the global community. Through the Foundation, she and her family built a primary care clinic in Angola, Africa, which provides subsidized primary and preventative care services for Angolans. Annually, she travels to Angola, Africa to serve patients in the family-built clinic. The establishment of the clinic inspired the construction of roads and improved access to water, lights and jobs for the surrounding Angolan community. Dr. Alisha has a history of building “with” people and community.

Alisha Moreland-Capuia Statement of Interest:

“Prosper Portland has effectively pivoted as an organization in demonstrating its commitment to inclusion and equity. Prosper Portland policies, hiring practices, consultant contracts and partnerships are all reflective of the renewed mission of ‘shared prosperity for all’. I joined the board because I love the city of Portland and hold the conviction that we must be good stewards of city resources. With future development, we must ensure that ALL Portlanders can participate in and benefit from the undoubted growth. We must also consider the human impact of expansion and change. I have been fortunate to be part of really great work (community building and healing) on behalf of Prosper Portland, namely through the Hill Block Project. I like to finish what I start, hence my desire to remain on the Prosper Portland Board.”
