

2015 Community Survey

Booming construction, traffic congestion, and costly housing

This is a sample from the City Auditor's 25th annual survey of Portlanders. We conduct the survey to gather public perceptions of City services. Most residents love their city and their neighborhoods, but gave mixed ratings to many City services.

Overall delivery of City services

Less than half of Portlanders felt positively about the City's overall job in providing services – the second lowest rating in 20 years.

Residential and commercial development

Portlanders report large increases over the past five years in completed residential and commercial developments in their neighborhoods.

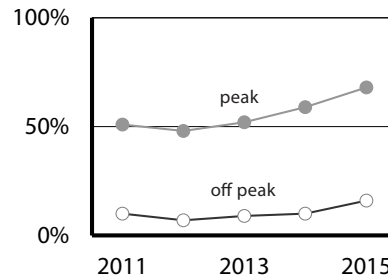

Negative ratings of housing affordability

More residents rated housing less affordable than five years ago.

Congestion on major streets

Residents reported an increase in traffic during all hours.

Police services

Residents were more satisfied with police in 2015 than in 2011.
