Total Calculated Permit Valuation:

Permit Valuation Methodology: The Permit Valuation methodology is mandated by the State of Oregon in OAR 918-050-0100. A structural permit fee for new construction and additions shall be calculated using the ICC Building Valuation Data Table current as of April 1 of each year, using the occupancy and construction type as determined by the building official, multiplied by the square footage of the structure. The square footage of a building, addition, or garage shall be determined from outside exterior wall to outside exterior wall for each level. The valuation used will be the greater of either the above calculated value or the value as stated by the applicant. A structural permit fee for alterations or repair shall be based on the fair market value of the permitted work as determined by the building official and defined below.

Fair Market Value: The Fair Market Value to be used in computing the permit fee for alterations and repair shall be the total value of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems and other permanent work or equipment, and contractor's profit.
