NOTICE OF A TYPE II DECISION ON A PROPOSAL IN YOUR NEIGHBORHOOD

The Bureau of Development Services has approved a proposal in your neighborhood. The reasons for the decision are included in this notice. If you disagree with the decision, you can appeal it and request a public hearing. Information on how to appeal this decision is listed at the end of this notice.

CASE FILE NUMBER: LU 11-150947 DZ - DESIGN REVIEW FOR A ROOFTOP MECHANICAL UNIT AND STOREFRONT ALTERATION

GENERAL INFORMATION

Applicant: Michael McMenamin
430 N Killingsworth Street
Portland, OR 97217

Fulton Pub & Brewery
0618 SW Nebraska Street
Portland, OR 97201

Representative: Jody Depew, (503) 462-4822
HVAC, Inc
5188 SE International Way
Milwaukie, OR 97222

Site Address: 0618 SW NEBRASKA STREET

Legal Description: BLOCK 11 LOT 11, SOUTHERN PORTLAND
Tax Account No.: R780201190
State ID No.: 1S1E15CD 16600
Quarter Section: 3629
Neighborhood: South Portland NA., contact Jim Davis at 503-248-9820.
Business District: South Portland Business Association, contact Brian Alfano at 503-288-5661.
District Coalition: Southwest Neighborhoods Inc., contact Leonard Gard at 503-823-4592.
Plan District: Macadam
Zoning: CSd – Storefront Commercial Zone with a Design Overlay
Case Type: DZ – Design Review
Procedure: Type II, an administrative decision with appeal to the Design Commission

Proposal:

The applicant seeks Design Review to install a new condenser mechanical unit on the roof of the building located at 0618 SW Nebraska Street. The 34”(h) x 33”(w) x 13”(d) unit would sit 11’-6” from the north roof edge along Nebraska and 10’-10” from the east roof edge parallel with Macadam. This proposed unit would replace the box unit currently on the upper portion of the street-facing façade on the north elevation behind the awning. Once the existing unit is removed the opening will be covered and treated with siding to match the exterior of the building.

Relevant Approval Criteria:

In order to be approved, this proposal must comply with the approval criteria of Section 33.825.065 of the Portland Zoning Code. The relevant approval criteria are:

- Macadam District Design Guidelines

ANALYSIS

Site and Vicinity: The 5,000 square foot site is located on the south side of Nebraska Street with Macadam Avenue approximately 77’ to the east. The site lies along the western edge of the Macadam Plan District and is developed with two buildings that total 1,830 square feet. The larger front building contains McMennamin’s Fulton Pub and a separate business occupies the smaller building in the southwest corner of the site. The remainder of the property is improved with outdoor seating areas and bike parking. The front building, where the rooftop mechanical unit is proposed, is 12’-0” tall with a varying parapet that averages 1’-0”. Four other mechanical units are located on the roof in addition to a skylight and sign support structure. The new rooftop unit will replace a window box unit currently in the upper portion of the north, street-facing façade.

Zoning: The Storefront Commercial (CS) zone is intended to preserve and enhance older commercial areas that have a storefront character. The zone intends that new development in these areas will be compatible with this desired character. The zone allows a full range of retail, service and business uses with a local and regional market area. Industrial uses are allowed but are limited in size to avoid adverse effects different in kind or amount than commercial uses and to ensure that they do not dominate the character of the commercial area. The desired character includes areas which are predominately built-up, with buildings close to and oriented towards the sidewalk especially at corners. Development is intended to be pedestrian-oriented and buildings with a storefront character are encouraged.

The “d” overlay promotes the conservation and enhancement of areas of the City with special historic, architectural or cultural value. New development and exterior modifications to existing development are subject to design review. This is achieved through the creation of design districts and applying the Design Overlay Zone as part of community planning projects, development of design guidelines for each district, and by requiring design review. In addition, design review ensures that certain types of infill development will be compatible with the neighborhood and enhance the area.

The Macadam Plan District implements the Macadam Corridor Study. The plan district contains a set of regulations designed to preserve and promote the unique character of the Macadam area. In addition to special development standards for the district, the regulations restrict auto-oriented uses and development, limit signs, allow for future light rail, and provide view corridors to the Willamette River.

Land Use History: There are no previous land use reviews for the subject site.

Agency Review: A “Notice of Proposal in Your Neighborhood” was mailed **July 12, 2011**. The following Bureaus provided responses:

- Bureau of Environmental Services (Exhibit E.1)
- Water Bureau (Exhibit E.2)
- Life Safety Review Section of BDS (Exhibit E.3)

The following Bureaus responded with no concerns:

- Site Development Review Section of BDS
- Bureau of Transportation Engineering and Development Review
- Bureau of Parks, Forestry Division
- Fire Bureau

Neighborhood Review: A Notice of Proposal in Your Neighborhood was mailed on July 12, 2011. No written comments were received from property owners or the neighborhood association.

ZONING CODE APPROVAL CRITERIA

DESIGN REVIEW (33.825)

33.825.010 Purpose

Design Review ensures:

- That development conserves and enhances the recognized special design values of a site or area;
- The conservation, enhancement, and continued vitality of the identified scenic, architectural, and cultural values of each design district;
- That certain types of infill development will be compatible with the neighborhood and enhance the area; and
- High design quality of public and private projects.

33.825.055 Design Review Approval Criteria

A design review application will be approved if the review body finds the applicant to have shown that the proposal complies with the design guidelines for the area.

It is important to emphasize that design review goes beyond minimal design standards and is viewed as an opportunity for applicants to propose new and innovative designs. The design guidelines are not intended to be inflexible requirements. Their mission is to aid project designers in understanding the principal expectations of the city concerning urban design.

The review body conducting design review may waive individual guidelines for specific projects should they find that one or more fundamental design guidelines is not applicable to the circumstances of the particular project being reviewed.

Macadam Corridor Design Goals and Guidelines

The following goals are specific to the Macadam Corridor Design Zone.

- Create and improve connections, both physical and visual, between the river, Greenway Trail, Willamette Park and the residential community west of Macadam.
- Encourage opportunities for public use and enjoyment of the waterfront.
- Promote a quality of development in this scenic entry corridor to the Downtown that complements Macadam's landscape treatment.
- Require excellence in design for projects within the Corridor, particularly by assuring that new development contributes to the formation of a rich and diverse mixture of uses and styles in scale with each other.
- Add to the scenic qualities of the river and the Greenway Trail.
- Promote compatibility of new development with the river, surrounding uses, and the neighborhood.

Staff has considered all guidelines and has addressed only those guidelines considered applicable to this project.

Macadam Corridor Design Guidelines

1. Visual Connections. Create public views to the river, Greenway Trail and Willamette Park from Macadam Avenue and other public parks and rights-of-way west of Macadam as well as views from the river and the Greenway to the west.

- Promote physical and visual contact between the river and the area west of Macadam Avenue.
- Orient buildings, which front Macadam Avenue to preserve views of the river, Willamette Park and the Greenway.
- Integrate the east and west sides of Macadam Avenue by creating views of the river which align with streets on the east side of Macadam.
- Take particular advantage of opportunities to create and protect views, which align with Southwest Texas, Florida, Pendleton, Idaho, Nebraska, Dakota and Hamilton Streets.
- Rooftops of buildings should be carefully designed to enhance views.
- Plant on-site trees, which will grow to a sufficient height to soften new development and screen parking areas while selecting species and planting locations, which enhance view corridors to the river.

Findings: The building itself is only 12'-7" tall with a varying 1'-0" tall parapet. The new unit will project approximately 2'-0" above the parapet and will be a matte grey color blending in with the roof and three existing mechanical units. Given the low profile and color of the new rooftop unit on this single story building the impact on the views from the higher elevations will be negligible. *This guideline is therefore met.*

5. Sub-Area Context. Enhance a site's character through designs that are compatible with features of their surroundings and contribute to the development of an attractive character in the vicinity of the project site. Pay particular attention to cases where the adjacent use is different from that which a project will house.

- Locate buildings to avoid excessive shadow on public open spaces, especially Willamette Park and the Greenway Trail.
- Isolated or independent buildings and open spaces should provide design solutions of merit, which consciously set a precedent for neighboring future developments.
- Buildings and open spaces should establish complementary relationships in terms of color, texture, scale of architectural elements, and proportions with neighboring developments.
- Provide sensitive transitions between new development and adjacent residential areas.

Findings: The unit will be partially screened from both Nebraska and Macadam Streets. The 2'-10" tall unit will be setback 11'-6" from the Nebraska roof edge and at least 10'-0" from the east roof edge that is parallel with Macadam. The building is located approximately 77'-0" west of Macadam providing an additional setback from the Boulevard. The unit will also be situated behind the large projecting sign and associated support structure that sit at the roof edge providing additional screening. The 1'-0" parapet and grey matte color of the unit will also help reduce the visibility on this low profile building. The new roof unit will be consistent with the other mechanical equipment existing on the roof of this building and other commercial buildings in the area. For these stated reasons, the visual and physical impact of the units will be minor and, as such, will not impact the overall boulevard experience of Macadam or Nebraska and not detract from the building's façade.

Regarding the ground level, the box unit on the north, street-facing façade will be removed. The opening will be filled in and finished with siding that matches the exterior of the front elevation providing a cohesive composition. *This guideline is therefore met.*

DEVELOPMENT STANDARDS

Unless specifically required in the approval criteria listed above, this proposal does not have to meet the development standards in order to be approved during this review process. The plans submitted for a building or zoning permit must demonstrate that all development standards of Title 33 can be met, or have received an Adjustment or Modification via a land use review prior to the approval of a building or zoning permit.

CONCLUSIONS

The design review process exists to promote the conservation, enhancement, and continued vitality of areas of the City with special scenic, architectural, or cultural value. The setback, height, and color of the unit ensure the impact on the adjacent streets, elevated view and on the building will be minor. The re-siding on the street-facing façade where the box unit is to be removed will complement the existing building's exterior finish. The proposal meets the applicable design guidelines and therefore warrants approval.

ADMINISTRATIVE DECISION

Approval of a 34"(h) x 33"(w) x 13"(d) rooftop mechanical unit and siding replacement on the east façade in the Macadam Design District per the approved site plans, Exhibits C-1 through C-5, signed and dated 8/11/2011, subject to the following conditions:

- A. As part of the building permit application submittal, each of the 4 required site plans and any additional drawings must reflect the information and design approved by this land use review as indicated in Exhibits C.1-C.5. The sheets on which this information appears must be labeled, "Proposal and design as approved in Case File # LU 11-150947 DZ. No field changes allowed."

Staff Planner: Staci Monroe

Decision rendered by:  **on August 11, 2011**

By authority of the Director of the Bureau of Development Services

Decision mailed: August 15, 2011

About this Decision. This land use decision is **not a permit** for development. A Final Plat must be completed and recorded before the proposed lots can be sold or developed. Permits may be required prior to any work. Contact the Development Services Center at 503-823-7310 for information about permits.

Procedural Information. The application for this land use review was submitted on June 22, 2011, and was determined to be complete on July 7, 2011.

Zoning Code Section 33.700.080 states that Land Use Review applications are reviewed under the regulations in effect at the time the application was submitted, provided that the application is complete at the time of submittal, or complete within 180 days. Therefore this application was reviewed against the Zoning Code in effect on June 22, 2011.

ORS 227.178 states the City must issue a final decision on Land Use Review applications within 120-days of the application being deemed complete. The 120-day review period may be waived or extended at the request of the applicant. In this case, the applicant did not waive or extend the 120-day review period.

Some of the information contained in this report was provided by the applicant.

As required by Section 33.800.060 of the Portland Zoning Code, the burden of proof is on the applicant to show that the approval criteria are met. The Bureau of Development Services has independently reviewed the information submitted by the applicant and has included this information only where the Bureau of Development Services has determined the information satisfactorily demonstrates compliance with the applicable approval criteria. This report is the decision of the Bureau of Development Services with input from other City and public agencies.

Conditions of Approval. If approved, this project may be subject to a number of specific conditions, listed above. Compliance with the applicable conditions of approval must be documented in all related permit applications. Plans and drawings submitted during the permitting process must illustrate how applicable conditions of approval are met. Any project elements that are specifically required by conditions of approval must be shown on the plans, and labeled as such.

These conditions of approval run with the land, unless modified by future land use reviews. As used in the conditions, the term “applicant” includes the applicant for this land use review, any person undertaking development pursuant to this land use review, the proprietor of the use or development approved by this land use review, and the current owner and future owners of the property subject to this land use review.

Appealing this decision. This decision may be appealed to the Design Commission which will hold a public hearing. Appeals must be filed **by 4:30 PM on August 29, 2011** at 1900 SW Fourth Ave. Appeals can be filed Tuesday through Friday on the first floor of the Development Services Center until 3 p.m. After 3 p.m. and Mondays, appeals must be submitted to the receptionist at the front desk on the fifth floor. **An appeal fee of \$250 will be charged.** The appeal fee will be refunded if the appellant prevails. There is no fee for ONI recognized organizations appealing a land use decision for property within the organization’s boundaries. The vote to appeal must be in accordance with the organization’s bylaws. Assistance in filing the appeal and information on fee waivers is available from BDS in the Development Services Center. Please see the appeal form for additional information.

Appeal fee waivers. Multnomah County may cover the appeal fees for their recognized associations. An appeal filed by a recognized association must be submitted to the City with either the appropriate fee or the attached form signed by the County. Contact Multnomah County at 503-988-3043, 1600 SE 190th, Portland, OR 97233.

The file and all evidence on this case are available for your review by appointment only. Please call the Request Line at our office, 1900 SW Fourth Avenue, Suite 5000, phone 503-823-7617, to schedule an appointment. I can provide some information over the phone. Copies of all information in the file can be obtained for a fee equal to the cost of services. Additional information about the City of Portland, city bureaus, and a digital copy of the Portland Zoning Code is available on the internet at www.portlandonline.com.

Attending the hearing. If this decision is appealed, a hearing will be scheduled, and you will be notified of the date and time of the hearing. The decision of the Design Commission is final; any further appeal must be made to the Oregon Land Use Board of Appeals (LUBA) within 21 days of the date of mailing the decision, pursuant to ORS 197.620 and 197.830. Contact LUBA at 550 Capitol St. NE, Suite 235, Salem, Oregon 97301, or phone 1-503-373-1265 for further information.

Failure to raise an issue by the close of the record at or following the final hearing on this case, in person or by letter, may preclude an appeal to the Land Use Board of Appeals (LUBA) on that issue. Also, if you do not raise an issue with enough specificity to give the Design Commission an opportunity to respond to it, that also may preclude an appeal to LUBA on that issue.

Recording the final decision.

If this Land Use Review is approved, the final decision must be recorded with the Multnomah County Recorder.

A few days prior to the last day to appeal, the City will mail instructions to the applicant for recording the documents associated with their final land use decision.

- *Unless appealed*, The final decision may be recorded on or after **August 30, 2011 – (the day following the last day to appeal)**.
- A building or zoning permit will be issued only after the final decision is recorded.

The applicant, builder, or a representative may record the final decision as follows:

- **By Mail:** Send the two recording sheets (sent in separate mailing) and the final Land Use Review decision with a check made payable to the Multnomah County Recorder to: Multnomah County Recorder, P.O. Box 5007, Portland OR 97208. The recording fee is identified on the recording sheet. Please include a self-addressed, stamped envelope.
- **In Person:** Bring the two recording sheets (sent in separate mailing) and the final Land Use Review decision with a check made payable to the Multnomah County Recorder to the County Recorder's office located at 501 SE Hawthorne Boulevard, #158, Portland OR 97214. The recording fee is identified on the recording sheet.

For further information on recording, please call the County Recorder at 503-988-3034.

For further information on your recording documents please call the Bureau of Development Services Land Use Services Division at 503-823-0625.

Expiration of this approval. An approval expires three years from the date the final decision is rendered unless:

- A building permit has been issued, or
- The approved activity has begun, or
- In situations involving only the creation of lots, the land division has been recorded.

Recording other land use decisions. If the preliminary land division approval also contains approval of other land use decisions (examples include adjustments, conditional uses, and environmental reviews), these other approvals must be recorded by the Multnomah County Recorder before any building or zoning permits can be issued.

The applicant, builder, or their representative may record the final decisions on these other land use decisions as follows:

- **By Mail:** Send the two recording sheets (sent in separate mailing) and the final Land Use Review decision with a check made payable to the Multnomah County Recorder to: Multnomah County Recorder, P.O. Box 5007, Portland OR 97208. The recording fee is identified on the recording sheet. Please include a self-addressed, stamped envelope.
- **In Person:** Bring the two recording sheets (sent in separate mailing) and the final Land Use Review decision with a check made payable to the Multnomah County Recorder to the County Recorder's office located at 501 SE Hawthorne Boulevard, #158, Portland OR 97214. The recording fee is identified on the recording sheet.

For further information on recording, please call the County Recorder at 503-988-3034.

Expiration of this approval. An approval expires three years from the date the final decision is rendered unless:

- A building permit has been issued, or
- The approved activity has begun, or
- In situations involving only the creation of lots, the land division has been recorded.

Applying for your permits. A building permit, occupancy permit, or development permit may be required before carrying out an approved project. At the time they apply for a permit, permittees must demonstrate compliance with:

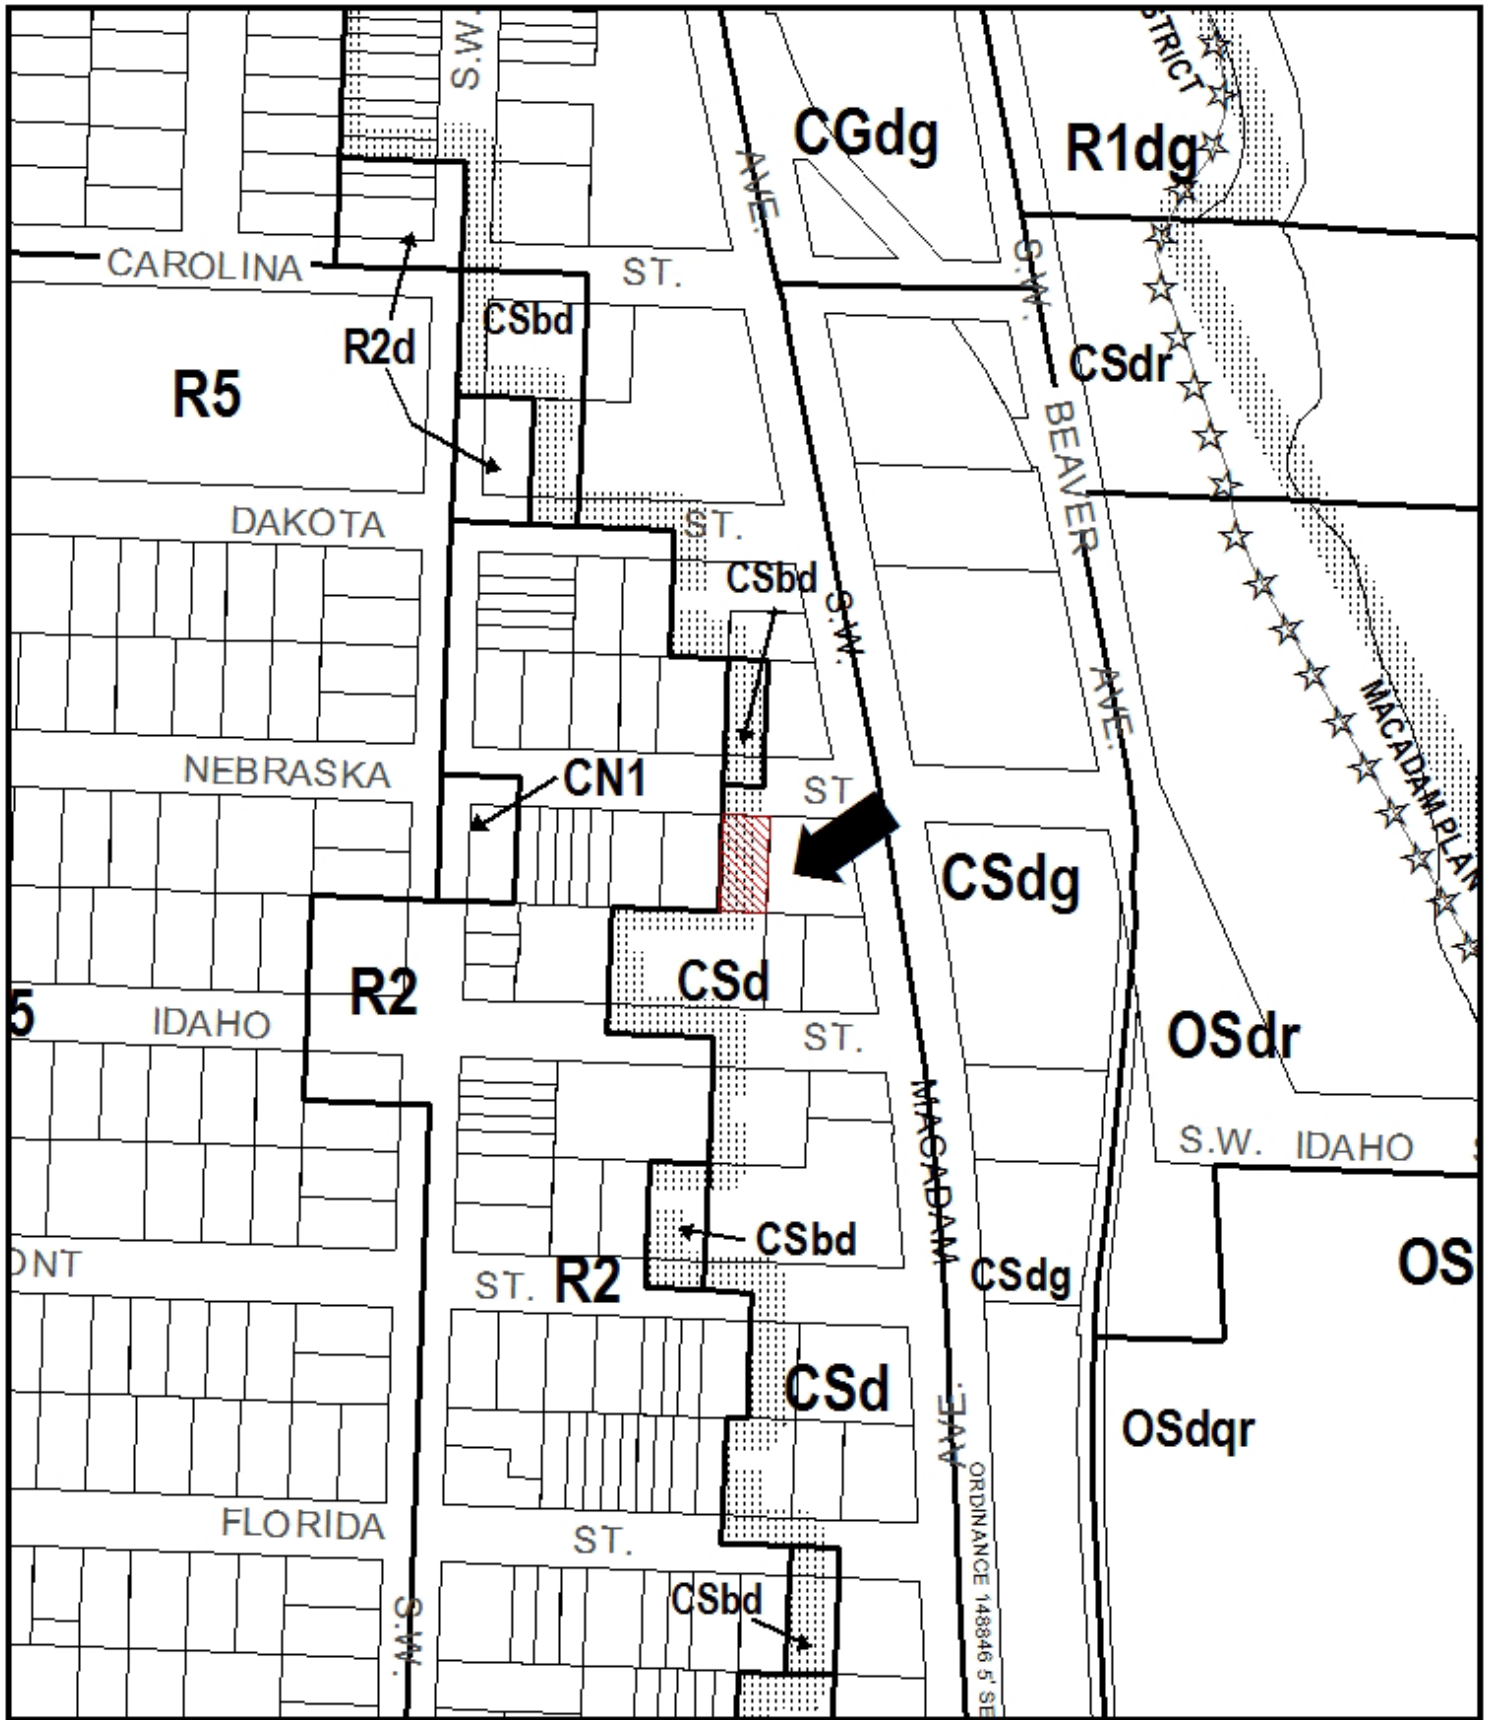

- All conditions imposed herein;
- All applicable development standards, unless specifically exempted as part of this land use review;
- All requirements of the building code; and
- All provisions of the Municipal Code of the City of Portland, and all other applicable ordinances, provisions and regulations of the City.
