Procedure: Type III, with a public hearing before the Design Commission and the right to appeal the Design Commission's decision to City Council.

Proposal: The applicant seeks **Design Review** for a new 30-story mixed-use tower. The project includes underground parking, 2 floors of retail, 15 floors of housing (203 units), and 13 floors of office. The tower has been approved in 2007 as a 33-story tower and also in 2009 as a 26-story tower (07-140633 DZM, MS, AD; 07-169105 PR; 09-104171 DZ; and 09-136017 DZM MS). The 2007 design included housing, the 2009 design removed the housing, and the 2013 design reinserts a housing component. The current proposal matches the 26-story tower's exterior design exactly, but includes 4 additional floors. Other than the additional 4 floors, nothing else about the exterior design has changed.

The **Central City Master Plan Amendment** is necessary to allow an increase in the transfer of floor area from Director Park (formerly known as Park Block 5) to the proposed tower site (Park Block 4). The maximum development capacity of each of the two blocks is 12:1 (9:1 base FAR + 3:1 bonus FAR). In 2009 an MS approval allowed a 9.1:1 FAR transfer. The current proposal is for an additional 2.6:1 FAR transfer, for a total FAR transfer of 11.7:1 from Director Park to Park Block 4.

Modification Requests:

1. 33.130.210.B.1., Height –A Modification is requested so that the spire may rise more than 10’ above the height limit. The proposed spire will be 41’-7” above the site’s 460’ height limit.
2. 33.266.310 Loading Standards –Size of loading spaces – Two on-site 10’ x 35’ x 13’ loading spaces are required. The proposal includes a loading dock on the SW Park Avenue façade. The loading dock can accommodate one full-size loading vehicle, one sub-standard loading vehicle for 22’-5” wide vehicles, and a dedicated trash pick-up space. Additionally, the full-size and sub-standard loading spaces cannot be utilized at the same time. A Modification to this standard is requested.

Park Block 5 will retain a base FAR of 0.3:1 to accommodate 3 small park structures. The remaining 11.7:1 FAR will be transferred to Park Block 4.

Park Block 4 FAR: Park Block 4 will achieve a 3:1 bonus FAR through the “residential bonus option. Through the Central City Master Plan process Park Block 4 will be allowed to develop the site with a 23.7:1 FAR (474,000 SF) – 11.7 FAR transferred from Park Block 5 and 12:1 from the maximum development potential of Park Block 4.
