

RCAC Meeting October 16, 2014

Attending: David Grant, Stan Tonneson, Larry Walter, Martha Bailey, Mitch Nickolds (BDS)

Proposed Updates to Title 28

The proposed updates are still in limbo, waiting for some changes to administrative review policies of the City.

Multnomah County

Stan continues to monitor the progress of Title 28 approval with Adam Barber. He is also confident that Title 28 will be included in the update of the Sauvie Island/Multnomah Channel Plan.

Dangerous Structures

The City does have a Distressed Property Program, but Title 28 is not included. The Marine Board has funds to manage derelict structures and the Sheriff's Department has jurisdiction but the structure must be abandoned and determined derelict for any action to occur.

The committee discussed the various structures and possibilities but still needs to find a resolution to the problem.

Check List for Moved-in Structures

Moved to next year.

Meeting Schedule

The final meeting for 2014 is scheduled for November 20.
