Certificate of Compliance
(Design and Historic Resource Review Approvals)

Thank you for participating in the City of Portland's Design/Historic Resource Review process. We look forward to your building's contribution to the City of Portland.

The Design/Historic Resource Review approval grants entitlements for the proposed work to be built. The expectation is that the building permit will reflect the elevations, sections, details, material samples, etc. that were stamped and signed by the land use case planner. Additionally, compliance with all Conditions of Approval is expected at the time of permit review and construction.

Land Use Services staff will review the permit drawings for compliance with the Design/Historic Resource Review decision. At the time of permit submittal, you will be required to submit this Certification of Compliance form. It is the applicant's responsibility, in the permit drawings, to demonstrate compliance with the Design/Historic Resource Review approved project. It is also the applicant's responsibility to identify for Land Use Services staff any and all revisions made to the project since Design/Historic Resource Review approval, whether the changes were made by choice, for value-engineering purposes, due to Code requirements, or for any other reason.

The Bureau of Development Services expects the project team to coordinate directly with the Design/Historic Resource Review planner once a change is being contemplated. Changes to the Design/Historic Resource Review drawings are subject to another land use review, which must be approved prior to the issuance of building permits; it is therefore critical for early engagement to have the time for the necessary coordination and process.

We (architect of record and owner) certify that the project plans submitted with the building permit application, and subsequent revisions and deferred submittals, are consistent with the Design Review or Historic Resource Review approval and meet the Conditions of Approval.
