

PortlandMaps.com LAND USE CASE Search Guide

In an effort to improve public access and the usability of Land Use information contained in the Portland Maps website (www.portlandmaps.com), the City of Portland Bureau of Technology Services and the Bureau of Development Services (BDS) launched a Land Use Search Function.

LAND USE SEARCH

Click on **[Advanced]** on the center of the navigation bar at the top of the page, then select **[Land Use]** from the drop down menu.

Use the drop-down menus and date entry boxes to generate your desired search.

Click on the links in the result grid to view detailed information on a particular land use case.

DOWNLOADING SEARCH RESULTS TO OTHER FORMATS

Click on the CSV, JSON or XML buttons to download the entire result set in the corresponding format. Use the CSV button to export the data to Excel for sorting or other purposes.
