**SUMMARY:**

Portland Parks & Recreation will be taking an ordinance to Portland City Council to recommend updates to the Parks System Development Charge (SDC) Code, Chapter 17.13.

The code updates are not changing the SDC Methodology, rate structure, or SDC-CIP list that Council previously adopted through Ordinance 187150, as amended, and Ordinance 187770.

**CODE UPDATE GOALS:**

- Ensure code language is clear and precise
- Correct inconsistent and outdated code language
- Simplify code language (example: reference other Portland City Code or Oregon Revised Statute language rather than paraphrasing or re-stating in the Parks SDC Code)
- Update eligibility criteria and increase transparency in SDC credit process
- Update decision-making authorities and process
