If you propose to use a private water system, a determination that the system is adequate must be made.

Describe water source including location

Describe supply of water available (i.e. gallons per minute)

TO BE COMPLETED BY APPLICANT IF A PRIVATE WATER SYSTEM WILL BE USED

Application’s Name ___________________________ Phone __________________

Mailing Address ______________________________

Approval of most land uses involving a new or expanded use or the creation of a new parcel requires a determination that the water system is adequate. If you propose to use a public water system, deliver this form to the appropriate water district prior to making any land use application. After the water district fills in the following section and returns it to you, attach the completed form to your application.

If you will be using a private water system, please complete the bottom section of this form.

TO BE COMPLETED BY A WATER DISTRICT OFFICIAL

The District will provide service from a ______ inch line located in ____________________________

The proposed use should be required to make the following water system improvements as a condition of approval ______________________________

Water District ___________________________ Date ___________________________
