## Remote Video Re-inspections (RVR)

via hand-held mobile device

### What is a Video Re-inspection?

Need to have a re-inspection quickly to stay on schedule but don't have time for a two-hour appointment window? Have five or fewer corrections from a previous inspection? The Bureau of Development Services is offering a new service—real-time inspections using live video.

### What types of re-inspections qualify for this program?

Small projects and repairs with five corrections or fewer:

-  • **Mechanical** (furnace, water heater, duct issues, range hood, etc.)
-  • **Plumbing** (drain waste, vent, sealing of fixtures, etc.)
-  • **Electrical** (smoke and carbon monoxide detectors installation/locations, nail plate protection, range hood, etc.)
-  • **Building** (missing exterior house numbers, handrails, vent locations, ground floor shear, etc.)

### Requirements

- Internet Access (Strong Wi-Fi or 4G/LTE connection)
- Mobile Device with webcam (smartphone preferred, or tablet)
- Skype app
