

City of Portland - Bureau of Environmental Services - Engineering Services
Typical Lateral Table

Note: Only include a lateral table with the Plans when constructing a new sewer or when lateral design departs from our standards.

1	2	3	4	5	6
Address	Side of Street	Station	Length (ft)	Depth at Curb (ft)	Work at End of Lateral
3105 NE 60th	L	2+30	14	UNK	Connect to Existing Per Detail
3120 NE 60th	R	2+47	19	8.5	Install Molded PVC Cap with 2x4 Locator

Notes when completing a lateral table.

Column	Comments
1	Address should correspond to the street address of the property served.
2	Orientation of lateral perpendicular to mainline proceeding from most downstream manhole.
3	Station of lateral location measured from the previous downstream manhole
4	The length of lateral to the ROW or property line.
5	Depth at existing or future curb location
6	Notable information about the construction at the lateral end
