SW 86th Avenue Pump Station Project Update

PGE will return to install last vault on SW 84th

June 21, 2013

Environmental Services works to protect water quality, and the environment through wastewater collection and treatment, sewer construction and maintenance, stormwater management, and stream and watershed restoration.

Current Construction Activities

- **Temporary Trail Closure** – The contractor is replacing several maintenance access structures in the Garden Home section of the Fanno Pressure Sewer. Parts of the trail at SW 84th and SW 82nd are closed until early July. Go to www.portlandoregon.gov/bes/fanno for more information.
- **House Deconstruction** – The deconstruction of the house on the site of the future pump station is proceeding on schedule. The removal of the concrete basement and the pool is tentatively scheduled for the second week of July. The contractor is working with the Rebuilding Center to dismantle the house and recover reusable and recyclable material. Go to www.portlandoregon.gov/bes/fanno for more information.

Upcoming Construction

- **Electrical Conduit** - PGE will return to install the last vault at the northern end of SW 84th Avenue the second week of July. Installation will take up to two days. PGE plans to return to pave later that week.
- **SW 86th Avenue Pump Station** – Environmental Services is scheduled to start construction in late July or August 2013. More details on the construction schedule will be available soon.
