

2017 Sewer Contractor List
FINDING A CONTRACTOR
FOR YOUR SEWER CONNECTION
Current as of January 31, 2017

The purpose of this list is to assist our customers in locating licensed contractors who have indicated they provide sewer connection services in the Portland metro-area. By providing this list to our customers, the City of Portland does not imply that it endorses, guarantees, or warrants the contractors listed here or their work.

This is not a complete list of all contractors who perform this work. These contractors were licensed and bonded at the time this list was produced and attended training on the standards and requirements of Sewer Connections and Short Sewer Extensions. For additional contractors, you may also wish to consult the Yellow Pages under Sewer Contractors or Plumbers, or other sources.

Selection of a contractor to work at your property requires careful attention. Oregon Homebuilder Law, ORS Chapter 701, requires all construction contractors, including self-employed individuals, partnerships and corporations, to be registered with the State of Oregon Construction Contractors Board (CCB) before they advertise, bid on, perform construction, remodeling, or repair work of any kind. All licensed contractors are also required to include their CCB registration number on all of their printed materials, advertising, bid sheets, contracts, business cards, company vehicles, and signs. If you wish to verify a contractor's CCB registration, please call the Construction Contractors Board at 503-378-4621. They can provide current information about registration and any claims filed against a contractor. You may also wish to call the Better Business Bureau for information at 503-226-3981. Finally, we suggest that you consider soliciting bids from at least three different contractors.
