Fanno Pressure Sewer Repair Project Construction Update

MARCH 9, 2017

CONTACT: Debbie Caselton, 503-823-2831
Debbie.Caselton@portlandoregon.gov

This project will replace 19 maintenance access structures in nine locations in the Garden Home area, as well as install a pressure monitoring and recording system station off SW Railroad Street. These upgrades will ensure that the Fanno Basin Sewer System will continue to handle all wastewater flows year-round and provide better monitoring of the entire sewer system in the area. It will protect public health and the health of the Fanno Creek Watershed.

Trail Access Update

Intermittent trail re-openings and closures will continue on the Fanno Creek Trail between SW 81st and 77th avenues. The trail may have intermittent closures at the Garden Home Recreation Center. All dates below are approximate.

- Week of March 13: The trail will reopen temporarily between 81st and 77th. The two excavated sites on the trail will be covered with steel plates.
- Week of March 20: The trail may close at the Garden Home Recreation Center. This section may be closed into mid-April. Crews will then return in early May to work on the second line.
- Week of March 27: The trail will close for approximately a week to install the new section of steel pipe in the first sewer line.
- Week of April 3: Crews will continue to work on the trail, but will reopen the trail for through access with a narrower path.
- Week of May 8: The trail will be closed between SW 81st and 77th avenues to replace steel pipe in the second line.
- Week of May 22: Crews will restore the trail.

ENVIRONMENTAL SERVICES
CITY OF PORTLAND

working for clean rivers

Over one-third of Portland's 2,500 miles of sewer pipes are more than 80 years old. Projects to replace or repair aging sewers are important for protecting water quality, public health, and the environment. Learn more at www.portlandoregon.gov/bes.

Construction Schedule Update

Below is a tentative look-ahead schedule of remaining construction activities, some of which are pending permits:

- SW 77th Avenue and SW 76th Avenues sites: Crews will cover excavated sites with steel plates within the next couple weeks and return in early May to work on the second line.
- Esther Court: Crews will finish work on the first sewer line in the next week or so and return in early May to work on the second line.
- SW Railroad Street: Crews will begin work at this site as soon as the week of March 20, work through mid-April, and return in early May to work on the second line.
