

Craft Fermented Beverage Manufacturer Discharge Application

GENERAL CONTACT INFORMATION

Company Name:					
Facility Name:					
Facility Address:		City:		, OR	Zip:
Mailing Address (if different):		City:		,	Zip:
If multiple facilities the Portland metro area, list addresses below:					
Facility 2 Address:		City:		, OR	Zip:
Facility 3 Address:		City:		, OR	Zip:
Facility Contact Information					
Contact Name:		Telephone No.:			
Contact Title:		Email:			

BUSINESS INFORMATION

1. Check all operations performed at your facility:	<input type="checkbox"/> Beverage Manufacturing	<input type="checkbox"/> Sales	<input type="checkbox"/> Restaurant/Pub	<input type="checkbox"/> None
	<input type="checkbox"/> Bottling/Kegging	<input type="checkbox"/> Wholesales	<input type="checkbox"/> Other, describe:	
2. Check all productions produced at your facility:	<input type="checkbox"/> Beer	<input type="checkbox"/> Cider	<input type="checkbox"/> Distilled spirits	<input type="checkbox"/> None
	<input type="checkbox"/> Kombucha	<input type="checkbox"/> Wine	<input type="checkbox"/> Other, list:	
3. Days of operation:	<input type="checkbox"/> M-F	<input type="checkbox"/> Sa & Su	<input type="checkbox"/> M-Su	<input type="checkbox"/> Other:
4. Number of hours per day of operation:	<input type="checkbox"/> 8-10	<input type="checkbox"/> 11-16	<input type="checkbox"/> 17-24	<input type="checkbox"/> Other:
5. Number of employees:	<input type="checkbox"/> 1-5	<input type="checkbox"/> 6-10	<input type="checkbox"/> 11-20	<input type="checkbox"/> Other:

WATER ACCOUNT

1. Does this facility receive water or sewer billing statements from the City of Portland?	<input type="checkbox"/>	Yes	<input type="checkbox"/>	No
a. If Yes, list the water account number(s):				
Account No.:		Account No.:		
b. If No, who pays for the water bill?				
2. What is the average daily water use (gallons per day, gpd)?				

Craft Fermented Beverage Manufacturer Discharge Application

FACILITY INFORMATION

1. Does your facility use City of Portland water? If no, who is your water provider:		<input type="checkbox"/> Yes	<input type="checkbox"/> No
2. What wastewater types are generated and discharged to the City sewer system?	<input type="checkbox"/> Domestic (sinks, toilets, showers)	<input type="checkbox"/> Boiler and/or makeup tower water	
	<input type="checkbox"/> Process wastewater	<input type="checkbox"/> Other:	
3. Do you have floor drains in manufacturing or storage areas?		<input type="checkbox"/> Yes	<input type="checkbox"/> No
4. Do you store waste or chemicals at your facility?		<input type="checkbox"/> Yes	<input type="checkbox"/> No
8a. If Yes, indoors or outdoors?		<input type="checkbox"/> Yes	<input type="checkbox"/> No
8b. Are the materials in secondary containment?		<input type="checkbox"/> Yes	<input type="checkbox"/> No
5. Do you have a spill plan in place for spill prevention, response, cleanup of waste or chemicals entering the sewer system?		<input type="checkbox"/> Yes	<input type="checkbox"/> No
<p>6. Businesses regulated by the Craft Fermented Beverage Discharge Program will be required to monitor process water discharges to the sanitary sewer system to ensure compliance with City pH limits (5.5 – 11.5 standard units (SU)).</p> <p>List the process wastewaters associated with beverage production that this facility is or will be discharging to the sanitary sewer:</p> <hr/> <hr/> <hr/> <hr/>			
<p>Describe the location where your facility will be measuring the pH of the combined discharge of all process wastewaters:</p> <hr/> <hr/> <hr/>			

Craft Fermented Beverage Discharge Authorization required best management practices:

- Establish and implement procedures for neutralizing process wastewater when it is outside of the acceptable pH range of 5.0 to 11.5 standard units (SU).
- Maintain a pH log detailing the method of analysis, date of pH reading, results of the analysis, and action taken if the pH is outside the acceptable range (Section E.2.).
- Install and maintain screens with openings no greater than ¼ inch on all floor drains and sinks.
- Monitor the pH of process water discharges to the sewer weekly to ensure compliance with the City of Portland’s pH discharge limitations, within the range of 5.0 to 11.5 SU.
- Store all materials in secondary containment.
- The Discharger must maintain a sampling manhole or other suitable monitoring access to allow observation, sampling, and measurement of all industrial wastes being discharged into the City’s sewer system, in accordance with PCC 17.34.080 and Administrative Rules for Monitoring Access Structures ENB-4.35. If the Discharger does not have a monitoring access structure meeting the requirements of ENB-4.35, the facility may propose an alternative monitoring structure that allows for representative sampling of all process wastewater.
