Equipment & Amalgam Waste Management Log

Records are to be kept at a minimum three years, including receipts and manifests. Keep a log of all activity pertaining to waste management of dental amalgam waste, traps, filters, and amalgam separators. Train all personnel who may handle amalgam waste or perform maintenance on separator(s) of proper techniques. Follow the examples below when recording an event.

Facility Business Name:	**Facility Address:**

Date	Event or Waste Type	Number or Amount & Units	Vendor Name	Name & Title of Employee
