Stefanus.Gunawan@portlandoregon.gov

Environmental Services continues construction on the Hollywood-Grant Park Phase Two Sewer Repair Project to repair or replace 3,000 feet of aging public sewer pipes that are in deteriorating condition. This project includes repair and construction of manholes, sewer access cleanouts, and 196 feet of sewer service laterals. These improvements will protect public health and the environment by reducing the possibility of sewage releases to houses and streets.

Upcoming Survey Work

In preparation for the sewer repair work, survey crews will soon be on private properties adjacent to public sewer easements to take measurements, locate utilities, and inspect sewer pipes. The information they obtain will help City engineers and the construction contractor plan repairs to the public sewer pipes.

Although the sewer repair work is currently not scheduled, Environmental Services and the construction contractor will coordinate with property owners to plan and schedule that work.

ENVIRONMENTAL SERVICES
CITY OF PORTLAND

working for clean rivers

Over one-third of Portland's 2,500 miles of sewer pipes are more than 80 years old. Projects to replace or repair aging sewers are important for protecting water quality, public health, and the environment. Learn more at www.portlandoregon.gov/bes.

Survey Schedule

Between the hours of 7 a.m. and 6 p.m. between Tuesday, October 1st, and Friday, October 4th, survey crews are scheduled to be on the following properties:

- Public sewer easement located between properties north of NE Wasco Street and east of NE 47th Avenue
- Public sewer easement located between properties north of NE Wasco Street and west of NE 49th Avenue

Unfortunately, we are unable to provide exact dates and hours when our crews will be at each property because of variations in size of each property lot, unexpected discoveries, and other factors.

What To Expect During Survey Work

Survey crews will access public sewer easements located on private properties to accomplish the following activities:

- Determine the boundaries of the public sewer easement
- Determine property lines adjacent to the sewer easement
- Access sewers from manholes to inspect pipes
- Locate underground utilities and mark them with temporary paint markings or stakes and ribbons

As a courtesy, please do not remove any utility location markings or stakes and ribbons. These markings are vital to the project, and the construction contractor may return to complete additional inspections based on the markings.

Once the survey is complete, crews will return at a future date and time to match their markings against the County's information. We will coordinate with property owners to plan and schedule this future work.

For More Information

If you have a question or concern about this project, please let us know:

- Visit the project webpage at www.portlandoregon.gov/bes/HGP2 for details about construction methods and what to expect during construction
- Sign up for email updates on the www.portlandoregon.gov/bes/HGP2 by clicking the [SIGN UP](#) button
- Call Stefanus Gunawan at 503-823-5759
- Email Stefanus Gunawan at Stefanus.Gunawan@portlandoregon.gov and please write "HGP2" in the subject line of your email
- Please include your name, business name, property address, and project name (HGP2) in your email and voicemail messages

The Bureau of Environmental Services is committed to providing meaningful access. To request translation, interpretation, modifications, accommodations, or other auxiliary aids, please contact Stefanus Gunawan at 503-823-5759, or use Oregon Relay Service 711.
