

Plant Patterns in My Neighborhood

We are looking for patterns in nature! Find examples of these types of leaves in your neighborhood. Use the Leaf Characteristics card to help you. Draw a sketch or make a rubbing to show each type.

<p>Leaf edges are smooth.</p>	<p>Leaf edges are toothed (jagged).</p>	<p>Leaf edges are lobed (pointed).</p>
<p>Leaves have a simple arrangement.</p>		<p>Leaves have a compound arrangement.</p>
<p>Leaves have an alternate arrangement.</p>	<p>Leaves are whorled (attached all the way around the stem).</p>	<p>Leaves have an opposite arrangement.</p>
