

CLASS SPECIFICATION
Watershed Division Manager

FLSA Status: Exempt
Union Representation: Nonrepresented

GENERAL PURPOSE

Under general direction, plans, organizes, directs and evaluates the activities and personnel of the Watershed Division of the Watershed Services Group. Responsibilities include long and short-range watershed based planning for the Bureau of Environmental Services in conjunction with planning and engineering activities of other city bureaus; directing the development and implementation of programs, projects and plans to achieve bureau and city goals for protecting and enhancing watershed and river health. Performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

The Watershed Division Manager has administrative, financial and management responsibility for a division within the Bureau of Environmental Services Watershed Services Group. The incumbent is responsible for developing and implementing division goals related to overall group and bureau mission and goals. Responsibilities require independent judgment on issues that are complex, interpretative and evaluative in nature and are division, group, bureau and citywide in scope. Activities include long-range planning, developing policies, implementing bureau programs at the division level, organizing and directing division programs through management teams and developing and monitoring the division budget. Duties are carried out with considerable independence within the framework of established policies, procedures and guidelines.

ESSENTIAL DUTIES AND RESPONSIBILITIES

Any one position in this class may not perform all the duties listed below, nor do the listed examples of duties include all similar and related duties that may be assigned to this class.
