CLASS SPECIFICATION
Environmental Policy Analyst

FLSA Status: Exempt
Union Representation: Professional and Technical Employees (PTE)

GENERAL PURPOSE
Under general direction, bureau wide performs difficult and responsible analyses of environmental issues and regulations in support of public works and regulatory activities, functions and programs; provides sound professional recommendations for action and significant assistance in formulating policies and procedures; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS
Environmental Policy Analysts bureau wide perform difficult and responsible analyses and studies on a wide-range of environmental issues in support of the planning and execution of a public works bureau’s mission, goals and objectives. Incumbents are expected to define and apply appropriate study methodologies and utilize appropriate analytical tools and techniques to achieve sound, reliable, fact-based conclusions and recommendations. Assignments are generally given in terms of expected objectives to be accomplished and work is evaluated on the basis of results achieved. Assignments require considerable knowledge of environmental protection laws and regulations relevant to the assigned bureau. The work of this class involves significant accountability and decision-making responsibilities.

Environmental Policy Analyst is distinguished from other management and environmental analysts, or program staff in that the former classification’s emphasis is on providing environmental policy analysis and project management bureau wide for a large complex public works bureau.

ESSENTIAL DUTIES AND RESPONSIBILITIES
Any one position in this class may not perform all the duties listed below, nor do the listed examples of duties include all similar and related duties that may be assigned to this class.

10. Develops, negotiates, and manages consultant contracts and intergovernmental agreements.

11. Develops and coordinates long-range strategic analysis and prepares plan to meet the strategic plan.

**MINIMUM QUALIFICATIONS**

Knowledge of:

1. Principles, theories, and issues related to natural resources management and environmental protection.

2. Local, state and federal laws and regulations and government decisions applicable to the assigned area of responsibility.

3. Work activities, processes and business operations performed by bureau employees, which affect the bureau’s compliance with natural resources management or environmental protection laws or regulations.
4. Principles, tools and techniques of project management and program planning including
goal setting, work plan development, organization, and implementation.

5. Principles and practices of public administration, including purchasing, budgeting,
contracting and maintenance of public records.

6. Principles, practices and techniques of group process facilitation and conflict resolution.

7. Research methods and data analysis techniques and standards.

8. Principles and practices of sound business communication.

9. Computer software applications related to the work.

Ability to:

1. Analyze complex operational and administrative problems, evaluate alternatives; reach
sound, logical, fact-based conclusions; and recommend or implement effective courses
of action.

2. Develop and work with bureau staff to implement goals, objectives, policies, procedures,
work standards and management controls.

3. Principles, practices, tools and techniques of program/project planning and
management.

4. Analyze, interpret, explain and apply relevant laws, regulations, ordinances and policies.

5. Coordinate multiple, complex projects with multiple stakeholders; and meet critical
deadlines.

6. Collect, evaluate and interpret data, either in statistical or narrative form.

7. Prepare clear, concise and comprehensive reports, correspondence and other
documents appropriate to the audience.

8. Present conclusions and recommendations clearly, logically and persuasively to diverse
audiences.

9. Develop and provide training to bureau employees to achieve compliance with
environmental requirements.

10. Apply principles, practices and techniques of group process facilitation and conflict
resolution.

11. Develop and manage consulting contracts.

12. Exercise independent judgment and initiative within general policy guidelines.

13. Establish and maintain effective working relationships with bureau managers and staff,
staff of other bureaus, representatives of other governmental agencies, the public and
others encountered in the course of work.
Training and Experience:
A typical way of obtaining the knowledge, skills and abilities outlined above is graduation from a four-year college or university with a degree in environmental resources, public or business administration, or a closely related field; and two years of increasingly responsible natural resources and environmental protection experience; or an equivalent combination of training and experience. Experience in a public works or construction organization is preferred.

Licenses; Certificates; Special Requirements:
A valid state driver's license.
