Travel Portland, the official destination marketing organization for the City of Portland, along with Wieden & Kennedy, created the largest free-standing cuckoo clock in America for the 2014 "Portland is Happening Now" campaign.

The giant 24-foot tall cuckoo clock was handmade in Oregon and assembled in Portland by designers Nicolas Gros and J. Chester Armstrong.

The City of Portland and Travel Portland invite you to witness a piece of history, as the top portion of the cuckoo clock is unveiled in its new home inside Portland City Hall.
