

PURPOSE:

To invite community members to plan for the future of the city. There had not been a broad look at the current state and direction of Portland for 15 years.

To open up government to all Portlanders, particularly to underrepresented groups and communities.

17,000 participated.

American Planning Association (APA) Award for Community Outreach!!!

FINAL VISION DOCUMENT - *Portland 2030: a vision for the future*

The vision document is the broad perspective of our findings - a "30,000 foot view" of Portland in the future.

COMMUNITY ENGAGEMENT REPORT

This report serves the purpose of highlighting visionPDX's emphasis on community involvement, with vibrant stories of community engagement over the two visionPDX engagement phases, along with some principles of community involvement to pass on to other projects.

visionPDX DOCUMENTARY

visionPDX PHONE SURVEY

visionPDX contracted with Davis, Hibbits & Midghall, Inc., a local opinion research firm, to conduct a phone survey to assess attitudes of Portland residents towards our city's future and reactions to potential action steps in implementing our vision.

visionPDX COMMUNITY INPUT REPORT

This report is the most direct reflection (other than the database) of community input. It will ultimately be approximately 300 pages summarizing all of the 21,000 pages of data read by visionPDX volunteers, encapsulated by the visionPDX Drafting Committee, and refined by staff to make it accessible for readers and organized by themes.

Treetops and Grassroots: Uniting Long-Range Planning with Community-Based Action

VISION INTO ACTION **PORTLAND PLAN**

Vision Implementation

Portland Plan:

A long-range planning effort (30 year plan) building on the vision to update the City's Comprehensive Plan and other long-range and strategic plans.

Vision into Action (VIA) Coalition:

A broad, community-led alliance of organizations, businesses, neighborhoods, government and individuals acting collectively to ensure implementation of Portland's community vision.

Two tracks of vision implementation.

VIA directed by predominantly community-led Steering Committee.

VIA Involvement in the Portland Plan:

Public Engagement

What VIA offers that the Portland Plan doesn't have, but needs, such as social sustainability, etc.

You can't do Portland Plan without VIA. Vision covers much more than what the Portland Plan will cover.

Vision into Action Coalition

59 organizations currently members of the VIA Coalition

The Coalition's purposes are to:

- Convene action groups to solve problems/address big issues in the vision;
- Provide support for community-led projects by a variety of means, which may include grants and technical assistance, education and outreach, and advocacy training;
- Ensure alignment of government policies and programs with the vision;
- Track progress toward the vision; and
- Ensure sustainable sources of funding for the above.
