Join the discussion about your district's future.

Informed by the West Quadrant planning process so far, along with input from the Stakeholder Advisory Committee (SAC), the draft district plans for the Pearl District, Old Town/Chinatown, Downtown, West End, Goose Hollow, South Downtown/University and South Waterfront include long-range goals, policies and actions for each district. The open house will be an opportunity for the public to review and comment on the drafts along with a Willamette River Central Reach design concept. Feedback will be shared with the SAC as it considers potential revisions. A West Quadrant Plan including revised drafts will be forwarded to the Planning and Sustainability Commission and City Council for consideration this summer.

The West Quadrant Plan process will provide detailed planning for Central City areas on the west side of the Willamette River. This effort is part of the broader Central City 2035 project to update the 1988 Central City Plan.
