33.285.010 Purpose
This chapter provides regulations for Community Service uses that provide short term housing or mass shelter. These regulations recognize that it is in the public interest to provide short term housing and shelter to people who would otherwise not receive it, and to ensure that standards of public health and safety are maintained. The regulations are intended to reduce conflicts between these and other uses. These regulations recognize that short term housing and mass shelters have differing impacts, and encourages providers to locate in existing structures and work with neighbors. These regulations also focus on the land use impacts of these uses.

33.285.020 Description
Short term housing and mass shelters are defined in Chapter 33.910, Definitions. Both are Community Service uses, and are managed by public or non-profit agencies. They may be in a variety of structures, from conventional houses to large institutional buildings.

In zones where Retail Sales and Services uses are allowed, limited, or conditional uses, the applicant may choose to classify a short term housing facility as a hotel, which is included in the Retail Sales and Services category.
